Dec. 23, 1980
[H.R. 7306]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Nevada and Lake Tahoe Basin, land disposal and acquisition.

SECTION 1. (a) The Congress finds that—

(1) the Bureau of Land Management has extensive land ownership in small parcels interspersed with or adjacent to private lands in urban areas of Clark County, Nevada;

(2) for orderly development of the communities in that county certain of those lands should be sold by the Federal Government;

(3) the Lake Tahoe Basin is a closed basin two-thirds of which is located within the State of California and one-third within the State of Nevada;

(4) the environmental quality of the Lake Tahoe Basin is seriously jeopardized by overdevelopment of sensitive land areas;

(5) a majority of the acreage developed within the Lake Tahoe Basin and the potential for further development of sensitive land areas is within California;

(6) further tourist oriented development within the basin encourages significant permanent development of other kinds as well as tourist visitation; and

(7) the unique character of the Lake Tahoe Basin is of national significance deserving of further protection and management.

(b) The purpose of this Act is to provide for the orderly disposal of Federal lands in Clark County, Nevada, and to provide for acquisition of environmentally sensitive lands in the Lake Tahoe Basin.

Clark County, Nev.; land disposal.

SEC. 2. (a) The Secretary of the Interior (hereinafter in this Act referred to as the "Secretary") is authorized and directed to dispose of lands under the jurisdiction of the Bureau of Land Management in Clark County, Nevada, as shown on the map numbered 7306A, dated May 1980, and entitled "Las Vegas Valley, Nevada, Land Sales Map", which map shall be on file and available for public inspection in the offices of the Bureau of Land Management. Such disposal shall be in accordance with regulations developed jointly by the Secretary and the affected local governmental jurisdictions and shall be consistent with the provisions of the Federal Land Policy and Management Act and other applicable law except to the extent necessary to expeditiously carry out the provisions of this Act.

43 USC 1701 note.

Annual acreage limit.

(b) No more than seven hundred acres per calendar year may be offered for sale by the Bureau of Land Management in Clark County.

Land selection.

(c) Notwithstanding section 1(b), the Secretary and the affected local governmental jurisdictions shall jointly select lands to be offered for sale under this Act. The Secretary may not offer any land for sale if in his judgment such land has not been appropriately classified in accordance with adjacent land use by the local governmental jurisdiction. In the event agreement cannot be reached on joint selection, no lands shall be offered for sale.

Revenues.

(d)(1) Except as otherwise provided in this subsection, the revenues from the sale of public lands under this subsection within Clark County, Nevada, shall, notwithstanding any other provision of law, be deposited annually, in the general fund of the Treasury of the United States: *Provided,* That from these revenues, an amount equal to that actually appropriated from the Land and Water Conservation

94 STAT. 338

Fund pursuant to section 3 of this Act, shall be deposited in the Fund prior to fiscal year 1995.

(2) Five per centum of the annual revenues referred to in paragraph (1) shall be returned to the State of Nevada annually for use in the general education program of the State.

(3) Ten per centum of the net annual revenues referred to in paragraph (1) shall be returned annually directly to the county or municipality within the boundaries of which such land sale occurred to be used for the purpose of acquisition and development of recreational lands and facilities. The total annual revenue returned under this paragraph to each such county or municipality shall be an amount proportional to the amount of revenues generated under this section from sales under this section of Federal land located within each such county or municipality.

(e) The revenues deposited in the general fund of the Treasury of the United States under subsection (d) are deemed to be in the nature of repayment for those authorizations set forth in section 3 of this Act. The Secretary, in cooperation with the Secretary of Agriculture, shall submit an accounting report biannually of income and expenditure provided for by this Act to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Interior and Insular Affairs of the United States House of Representatives.

Report to congressional committees.

(f) The Secretary shall, subject to the provisions of subsection (c), make the first land sale offering of Clark County, Nevada, land no later than one year after the date of enactment of this Act.

Payments to localities.

(g)(1) The Secretary of Agriculture is authorized and directed to make annual payments to the governing bodies of each of the political subdivisions any portion of which is located in the area depicted on the final map filed pursuant to section 3(a). Such payments may be used only for water pollution control, soil erosion mitigation, or acquisition by local government authorities of lands and interests in lands within the Lake Tahoe Basin, or for any combination of the foregoing purposes.

(2) The total amounts appropriated for payments pursuant to this subsection shall be allocated proportionately among such political subdivisions in any fiscal year on the basis of the relative amounts of acreage acquired under this Act in each such political subdivision.

(3) In addition to the amounts authorized to be appropriated to carry out the provisions of section 3 of this Act, there is authorized to be appropriated for making payments under this subsection a sum equal to 15 per centum of the amount appropriated under such section 3.

Water pollution control and land management.

(h) In addition to the amounts authorized to be appropriated to carry out the provisions of section 3 of this Act, there is authorized to be appropriated a sum equal to 5 per centum of the amount appropriated under such section 3 to be used by the Secretary of Agriculture only for purposes of preventing, controlling, or mitigating water pollution associated with National Forest System lands in the Lake Tahoe Basin and for managing acquired lands within the Lake Tahoe Basin. (D) The map filed pursuant to subparagraph (B) shall be prepared at such scale as to clearly identify the affected land tracts by ownership and shall designate such tracts for acquisition or nonacquisition.

(4) Lands within the boundaries of the area subject to acquisition under this section which are owned by any State or local government may be acquired only by donation.

Administration.

(b) Lands acquired under this section shall be administered as a part of the United States National Forest System; except that the Secretary of Agriculture, acting through the Chief of the Forest Service, may, in the case of lands which are unsuitable for Forest Service administration, transfer such lands or interests therein to an appropriate unit of State or local government with appropriate deed restrictions to protect the environmental quality and public recreational use of the lands concerned.

Improved lands, acquisition.

(c)(1) Except as provided in paragraph (2), with respect to that portion of the Lake Tahoe Basin, as defined as of the date of the enactment of this Act by the Secretary of Agriculture, which lies within the boundary of the State of California, as in effect on the date of the establishment of the Tahoe National Forest (October 3, 1905), the Secretary of Agriculture may acquire improved lands or interests in improved lands with the consent of the owner thereof or upon a finding by the Secretary of Agriculture that such lands are being used, or that an imminent threat exists that they will be used, in a manner detrimental to the preservation of the existing water quality of the basin.

Single family dwellings, acquisition restrictions.

(2) No single family dwelling which is improved land (as defined in this subsection) may be acquired under the provisions of this subsection without the consent of the owner thereof unless the Secretary of Agriculture with the concurrence of the Tahoe Regional Planning Agency finds that (A) a change in the use of such dwelling has occurred subsequent to the date of enactment of this Act or that such a change in use is threatened, and (B) in the case of a single family dwelling having a change or threatened change in use but maintained as a single family dwelling, such change or threatened change will result in a detriment to the preservation of the existing water quality of the basin.

(3) At such time as the Tahoe Regional Planning Agency has adopted final requirements for the protection of the water quality of the basin, the Secretary of Agriculture shall make the findings provided for in sections 3(c)(1) and 3(c)(2) herein in a manner consistent with such requirements.

(4) For purposes of this Act, the term—

"Improved land."

(A) "improved land" means any land on which there is located a single family dwelling or other residential or commercial building, the construction of which commenced before the date of enactment of this Act, together with so much of the land on which such building is located as is reasonably necessary to the use and enjoyment of such building; and

"Unimproved land."

(B) "unimproved land" means any land other than improved land.

Right of use and occupancy.

(5)(A) The owner or owners of any improved land acquired by the Secretary of Agriculture under this Act may retain a right of use and occupancy of such land for—

94 STAT. 3385

(i) a definite term of not more than twenty-five years from the date of the enactment of this Act, or,

(ii) a term ending at the death of the owner or owners of such land.

The owner shall elect the term to be reserved, except that if the owner is a corporation, the term shall not exceed twenty-five years from the date of the enactment of this Act. Unless the improved land is wholly or partially donated, the Secretary of Agriculture shall pay to the owner the fair market value of the improved land on the date of its acquisition, less the fair market value on that date of the right retained by the owner. For purposes of applying the preceding provisions of this subparagraph, ownership shall be determined as of the date of acquisition, except that in applying clause (ii) ownership shall be determined as of May 1, 1980.

(B) A right retained by the owner pursuant to this paragraph shall be subject to termination by the Secretary of Agriculture upon his determination that it is being exercised in a manner inconsistent with the purposes of this Act, and it shall terminate by operation of law upon notification by the Secretary of Agriculture to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.

Acquisition without owner's consent.

(d) Lands and interests therein may be acquired by the Secretary of Agriculture with concurrence of the Tahoe Regional Planning Agency in accordance with this section without the consent of the owner thereof only where, in his judgment, all reasonable efforts to acquire such lands or interests therein by negotiation have failed.

Fair market value.

(e) The fair market value of any land or interest in land to be acquired by the Secretary of Agriculture under this section shall be determined by an independent appraisal made, where practicable, on the basis of comparable sales at the time of such acquisition. For purposes of the appraisal of any property to be acquired under this section, in determining the comparability of other property sales, the independent appraisal shall take into account the utilities, services, and facilities associated with the property concerned. Any change after the date of the enactment of this Act in the value of any property to be acquired under this section shall not be taken into account for purposes of determining the fair market value of such property to the extent that such change is attributable to the enactment of this Act.

Purchase price, installments.

(f) In acquiring any property under this section, the Secretary of Agriculture and the owner of the property to be acquired may agree that the purchase price will be paid in periodic installments over a period that does not exceed ten years, with interest on the unpaid principal balance thereof at a rate which is not in excess of the current average market yield on outstanding marketable obligations of the United States with remaining period of maturity comparable to average maturities on the installments.

Appropriation authorization.

(g) There is hereby authorized to be appropriated, for the purposes of this Act, from the Land and Water Conservation Fund, $10,000,000 for the fiscal year 1982, and $20,000,000 for the fiscal year 1983. In addition there is hereby authorized to be appropriated for these and subsequent fiscal years an amount equal to the amount of revenue obtained by the Federal Government from the sale of federally owned lands in Clark County, Nevada, after October 1, 1978, reduced for any fiscal year by the amount appropriated, pursuant to this sentence, in the prior fiscal years. Funds appropriated pursuant to this section may be expended without regard to any limitations contained in the provisions of section 7(a)(1) of the Land and Water Conservation Fund Act of 1965. Amounts authorized to be appropriated under this subsection shall remain available until expended. Authorizations of moneys to be appropriated under this Act shall be effective October 1, 1981. 20 USC 1601 note.

20 USC 1601 note.

Energy resources. 48 USC 1492.

SEC. 604. (a) The Congress finds that—

(1) the Caribbean and Pacific insular areas of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Federated States of Micronesia, the Marshall Islands, and Palau are virtually completely dependent on imported sources of energy;

94 STAT. 3481

(2) the dependence of such areas on imported sources of energy coupled with the increasing cost and the uncertain availability and supply of such sources of energy will continue to frustrate the political, social, and economic development of such areas by placing increasingly severe fiscal burdens on the local governments of these areas;

(3) these insular areas are endowed with a variety of renewable sources of energy which, if developed, would alleviate their dependence on imported sources of energy, relieve the fiscal burden on local governments imposed by the costs of imported fuel, and strengthen the base for political, social, and economic development;

(4) appropriate technologies are presently available to develop the renewable energy resources of these insular areas but that comprehensive energy plans have not been adequately developed to meet the energy demands of these areas from renewable energy resources.

Energy resources, development.

(b) The Congress declares that it is the policy of the Federal Government to—

(1) develop the renewable energy resources of the Caribbean and Pacific insular areas of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Federated States of Micronesia, the Marshall Islands, and Palau; and

(2) to assist other insular areas in the Caribbean and Pacific Basin in the development of their renewable energy resources.

Comprehensive energy plan.

(c) The Secretary of Energy or any administrative official who may succeed him shall prepare a comprehensive energy plan with emphasis on indigenous renewable sources of energy for Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Federated States of Micronesia, the Marshall Islands and Palau. The plan shall be prepared with the approval of the Secretary of the Interior and in cooperation with the chief executive officer of each insular area by—

(1) surveying existing sources and uses of energy;

(2) estimating future energy needs to the year 2020, giving due consideration to a range of economic development possibilities;

(3) assessing, in depth, the availability and potential for development of indigenous energy sources, including solar, wind, hydropower, ocean current and tidal, biogas, biofuel, geothermal and ocean thermal energy conversion;

(4) assessing the mix of energy sources (including fossil fuels) and identifying those technologies that are needed to meet the projected demands for energy; and

(5) drafting long-term energy plans for such insular areas with the objective of minimizing their reliance on energy imports and making maximum use of their indigenous energy resources.

(d) The Secretary of Energy or any administrative official who may succeed him, with the approval of the Secretary of the Interior, as part of the comprehensive energy planning may demonstrate those indigenous renewable energy technologies which are determined to be most cost effective through the use of existing programs.

Plan submittal to Congress.

(e) Within two years from the date of enactment of this Act, the Secretary of Energy or any administrative official who may succeed him shall submit the comprehensive energy plan for each insular area to the Congress.

Appropriation authorization.

(f) There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

Effective date.
42 USC 1962d-16.

SEC. 605. Effective October 1, 1981, section 22 of the Water Resources Development Act of 1974 (Public Law 93-251) is amended by adding at the end thereof the following:

"State."

"(c) For the purposes of this section, the term 'State' means the several States of the United States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Marianas, and the Trust Territory of the Pacific Islands.".

94 STAT. 3482

SEC. 606. (a) The Congress finds that—

(1) the Trust Territory of the Pacific Islands is composed over two thousand islands scattered over three million square miles of the North Pacific Ocean with a total land area of only seven hundred square miles supporting approximately one hundred thousand persons;

(2) the health, safety, welfare, as well as the political, social, and economic development of the peoples of the Trust Territory of the Pacific Islands are totally dependent on the adequacy and regularity of inter-island transportation;

(3) the principal form of inter-island transportation, especially for the outer islands is and will continue to be surface transportation;

(4) at present inter-island surface transportation is completely dependent on uncertain supplies of increasingly expensive imported fuel;

(5) recent developments in sail-assisted technology offer the potential for alleviating the dependence of the peoples of the Trust Territory of the Pacific Islands on imported fuel for surface transportation, thereby improving the capability for regular supply schedules to the various islands, relieving the fiscal burden on local governments caused by the costs of imported fuel, and strengthening the base for political, social, and economic development of the peoples of the Trust Territory of the Pacific Islands.

Transportation. Report to Congress.

(b) In order to ascertain the potential for sail-assisted technology for inter-island transportation in the Trust Territory of the Pacific Islands, the Secretary of the Interior is directed to review the transportation needs of the Trust Territory of the Pacific Islands and submit a report to the Congress by October 1, 1981, on his findings and recommendations.

(c) In preparing his report, the Secretary of the Interior shall consider, but is not limited to, frequency of services, present and alternative routes, cargo delivery, operating costs, port and docking availability and adequacy, and the impact on energy costs of the use of a second generation of inter-island field trip vessels using sail-assisted technology. The report shall set forth a scientific analysis of the potential applications of sail-assisted technology as a means of reducing energy costs for inter-island transportation including, but not limited to, statistics on windspeed, direction, wave heights and currents; possible design configurations and specifications for sail-assisted vessels; cost estimates for construction, financing, and operation; and such other information as he deems appropriate to determine the feasibility of sail-assisted technology for inter-island transportation.

(d) The Secretary is directed to consult with appropriate representatives of the various local government units in the Trust Territory of the Pacific Islands as well as the Secretary of Transportation, the Secretary of Commerce, and the Secretary of Defense in preparing the report.

Appropriation authorization. 48 USC 1641 note.

94 STAT. 3483

SEC. 607. (a) In order to assist the governments of Guam and the Virgin Islands in eliminating general fund deficits, there is authorized to be appropriated to the Secretary of the Interior for payment to Guam not to exceed $15,000,000 for fiscal year 1982, and $11,000,000 for fiscal year 1983, $7,500,000 for fiscal year 1984, and $4,000,000 for fiscal year 1985; and for payment to the Virgin Islands not to exceed $12,000,000 for fiscal year 1982, $9,000,000 for fiscal year 1983, $6,000,000 for fiscal year 1984, and $3,000,000 for fiscal year 1985.

Plan submittal to Secretary of Interior.

(b) The Governors of Guam and the Virgin Islands shall each submit a plan for approval to the Secretary of the Interior in consultation with the Secretary of the Treasury which is designed to eliminate the respective territory's general fund deficits by the beginning of fiscal year 1986. Such plan shall provide for—

(1) implementation of an effective budgeting and accounting system;

(2) realistic revenue and expenditure projections which will progressively reduce current year general fund deficits and result in a balanced general fund budget no later than the beginning of fiscal year 1986;

(3) financing of accumulated general fund deficits;

(4) quarterly goals and timetables for implementing the plan. The plan shall also indicate that the Governor has the necessary authority to implement the plan.

Report submittal to Secretaries of Interior and Treasury.

(c) Not more than thirty days after the close of each quarter which occurs after the plan required under subsection (a) of this section has been approved by the Secretary of the Interior in consultation with the Secretary of the Treasury and through the close of fiscal year 1985, the respective Governor shall submit a report to the Secretary of the Interior and the Secretary of the Treasury, certified by the respective government comptroller, describing in detail the success or failure of such territory in meeting the goals and timetables described in such plan.

Payments.

(d) No payment shall be made under this title until the plan required under this section has been approved by the Secretary of the Interior in consultation with the Secretary of the Treasury. Before making any payment under this title after such plan has been approved, the Secretary shall determine whether the respective territory is meeting the goals and timetables prescribed in such plan. If the Secretary determines that such territory is not meeting such goals or timetables, he shall withhold payments otherwise due such territory until he determines that such goals and timetables are being met.

"ANNUAL ADMISSION OF REFUGEES AND ADMISSION OF EMERGENCY SITUATION REFUGEES

Entry, numerical limitations.
8 USC 1157.

"SEC. 207. (a)(1) Except as provided in subsection (b), the number of refugees who may be admitted under this section in fiscal year 1980, 1981, or 1982, may not exceed fifty thousand unless the President determines, before the beginning of the fiscal year and after appropriate consultation (as defined in subsection (e)), that admission of a specific number of refugees in excess of such number is justified by humanitarian concerns or is otherwise in the national interest.

"(2) Except as provided in subsection (b), the number of refugees who may be admitted under this section in any fiscal year after fiscal year 1982 shall be such number as the President determines, before the beginning of the fiscal year and after appropriate consultation, is justified by humanitarian concerns or is otherwise in the national interest.

"(3) Admissions under this subsection shall be allocated among refugees of special humanitarian concern to the United States in accordance with a determination made by the President after appropriate consultation.

Emergency conditions.

"(b) If the President determines, after appropriate consultation, that (1) an unforeseen emergency refugee situation exists, (2) the admission of certain refugees in response to the emergency refugee situation is justified by grave humanitarian concerns or is otherwise in the national interest, and (3) the admission to the United States of these refugees cannot be accomplished under subsection (a), the President may fix a number of refugees to be admitted to the United States during the succeeding period (not to exceed twelve months) in response to the emergency refugee situation and such admissions shall be allocated among refugees of special humanitarian concern to the United States in accordance with a determination made by the President after the appropriate consultation provided under this subsection.

Attorney General's authority.

"(c)(1) Subject to the numerical limitations established pursuant to subsections (a) and (b), the Attorney General may, in the Attorney General's discretion and pursuant to such regulations as the Attorney General may prescribe, admit any refugee who is not firmly resettled in any foreign country, is determined to be of special humanitarian concern to the United States, and is admissible (except as otherwide provided under paragraph (3)) as an immigrant under this Act.

Spouse or child, admission status.
8 USC 1101.
Ante, p. 102.

"(2) A spouse or child (as defined in section 101(b)(1) (A), (B), (C), (D), or (E)) of any refugee who qualifies for admission under paragraph (1) shall, if not otherwise entitled to admission under paragraph (1) and if not a person described in the second sentence of section 101(a)(42), be entitled to the same admission status as such refugee if accompanying, or following to join, such refugee and if the spouse or child is admissible (except as otherwise provided under paragraph (3)) as an immigrant under this Act. Upon the spouse's or child's admission to the United States, such admission shall be charged against the numerical limitation established in accordance with the appropriate subsection under which the refugee's admission is charged.

Waiver.
8 USC 1182.

94 STAT. 104

"(3) The provisions of paragraphs (14), (15), (20), (21), (25), and (32) of section 212(a) shall not be applicable to any alien seeking admission to the United States under this subsection, and the Attorney General may waive any other provision of such section (other than paragraph (27), (29), or (33) and other than so much of paragraph (23) as relates to trafficking in narcotics) with respect to such an alien for humanitarian purposes, to assure family unity, or when it is otherwise in the public interest. The Attorney General shall provide for the annual reporting to Congress of the number of waivers granted under this paragraph in the previous fiscal year and a summary of the reasons for granting such waivers.

Report to Congress.

"(4) The refugee status of any alien (and of the spouse or child of the alien) may be terminated by the Attorney General pursuant to such regulations as the Attorney General may prescribe if the Attorney General determines that the alien was not in fact a refugee within the meaning of section 101(a)(42) at the time of the alien's admission.

Ante, p. 102.

Report to congressional committees.

"(d)(1) Before the start of each fiscal year the President shall report to the Committees on the Judiciary of the House of Representatives and of the Senate regarding the foreseeable number of refugees who will be in need of resettlement during the fiscal year and the anticipated allocation of refugee admissions during the fiscal year. The President shall provide for periodic discussions between designated representatives of the President and members of such committees regarding changes in the worldwide refugee situation, the progress of refugee admissions, and the possible need for adjustments in the allocation of admissions among refugees.

Consultation, publication in Congressional Record.

"(2) As soon as possible after representatives of the President initiate appropriate consultation with respect to the number of refugee admissions under subsection (a) or with respect to the admission of refugees in response to an emergency refugee situation under subsection (b), the Committees on the Judiciary of the House of Representatives and of the Senate shall cause to have printed in the Congressional Record the substance of such consultation.

Proposed determination, review hearing.

"(3)(A) After the President initiates appropriate consultation prior to making a determination under subsection (a), a hearing to review the proposed determination shall be held unless public disclosure of the details of the proposal would jeopardize the lives or safety of individuals.

"(B) After the President initiates appropriate consultation prior to making a determination, under subsection (b), that the number of refugee admissions should be increased because of an unforeseen emergency refugee situation, to the extent that time and the nature of the emergency refugee situation permit, a hearing to review the proposal to increase refugee admissions shall be held unless public disclosure of the details of the proposal would jeopardize the lives or safety of individuals.

"Appropriate consultation."

"(e) For purposes of this section, the term 'appropriate consultation' means, with respect to the admission of refugees and allocation of refugee admissions, discussions in person by designated Cabinet-level representatives of the President with members of the Committees on the Judiciary of the Senate and of the House of Representatives to review the refugee situation or emergency refugee situation, to project the extent of possible participation of the United States therein, to discuss the reasons for believing that the proposed admission of refugees is justified by humanitarian concerns or grave humanitarian concerns or is otherwise in the national interest, and to provide such members with the following information:

"(a)(1) In the case of any individual, the determination of whether or not he is under a disability (as defined in section 216(i) or 223(d)) and of the day such disability began, and the determination of the day on which such disability ceases, shall be made by a State agency, notwithstanding any other provision of law, in any State that notifies the Secretary in writing that it wishes to make such disability determinations commencing with such month as the Secretary and the State agree upon, but only if (A) the Secretary has not found, under subsection (b)(1), that the State agency has substantially failed to make disability determinations in accordance with the applicable provisions of this section or rules issued thereunder, and (B) the State has not notified the Secretary, under subsection (b)(2), that it does not wish to make such determinations. If the Secretary once makes the finding described in clause (A) of the preceding sentence, or the State gives the notice referred to in clause (B) of such sentence, the Secretary may thereafter determine whether (and, if so, beginning with which month and under what conditions) the State may again make disability determinations under this paragraph.

Regulations.

"(2) The disability determinations described in paragraph (1) made by a State agency shall be made in accordance with the pertinent provisions of this title and the standards and criteria contained in regulations or other written guidelines of the Secretary pertaining to matters such as disability determinations, the class or classes of individuals with respect to which a State may make disability determinations (if it does not wish to do so with respect to all individuals in the State), and the conditions under which it may choose not to make all such determinations. In addition, the Secretary shall promulgate regulations specifying, in such detail as he deems appropriate, performance standards and administrative requirements and procedures to be followed in performing the disability determination function in order to assure effective and uniform administration of the disability insurance program throughout the United States. The regulations may, for example, specify matters such as—

"(C) State agency performance criteria, including the rate of accuracy of decisions, the time periods within which determinations must be made, the procedures for and the scope of review by the Secretary, and, as he finds appropriate, by the State, of its performance in individual cases and in classes of cases, and rules governing access of appropriate Federal officials to State offices and to State records relating to its administration of the disability determination function,

"(D) fiscal control procedures that the State agency may be required to adopt, and

"(E) the submission of reports and other data, in such form and at such time as the Secretary may require, concerning the State agency's activities relating to the disability determination.

Notification to Secretary.

"(2) If a State, having notified the Secretary of its intent to make disability determinations under subsection (a)(1), no longer wishes to make such determinations, it shall notify the Secretary in writing of that fact, and, if an agency of the State is making disability determinations at the time such notice is given, it shall continue to do so for not less than 180 days, or (if later) until the Secretary has complied with the requirements of paragraph (3). State agency employees, determination by Secretary of Labor.

"(B) The Secretary shall not make such assumption of the disability determination function until such time as the Secretary of Labor determines that, with respect to employees of such State agency who will be displaced from their employment on account of such assumption by the Secretary and who will not be hired by the Secretary to perform duties in the disability determination process, the State has made fair and equitable arrangements to protect the interests of employees so displaced. Such protective arrangements shall include only those provisions which are provided under all applicable Federal, State and local statutes including, but not limited to, (i) the preservation of rights, privileges, and benefits (including continuation of pension rights and benefits) under existing collective-bargaining agreements; (ii) the continuation of collective-bargaining rights; (iii) the assignment of affected employees to other jobs or to retraining programs; (iv) the protection of individual employees against a worsening of their positions with respect to their employment; (v) the protection of health benefits and other fringe benefits; and (vi) the provision of severance pay, as may be necessary.".

"(2)(A) The Secretary shall not implement the certification program established under subsection (a) with respect to policies issued in a State unless the Panel makes a finding that such State cannot be expected to have established, by July 1, 1982, an approved State regulatory program meeting the standards and requirements of subsection (b)(1). If the Panel makes such a finding, the Secretary shall implement such program under subsection (a) with respect to medicare supplemental policies issued in such State, until such time as the Panel determines that such State has a program that meets the standards and requirements of subsection (b)(1).

"SEC. 473. (a)(1) Each State with a plan approved under this part shall, directly through the State agency or through another public or nonprofit private agency, make adoption assistance payments pursuant to an adoption assistance agreement in amounts determined under paragraph (2) of this subsection to parents who, after the effective date of this section, adopt a child who—

42 USC 606, 607.

"(A)(i) at the time adoption proceedings were initiated, met the requirements of section 406(a) or section 407 or would have met such requirements except for his removal from the home of a relative (specified in section 406(a)) as a result of a judicial determination to the effect that continuation therein would be contrary to the welfare of such child, or

"(ii)(I) would have received such aid in or for such month if application had been made therefor, or (II) had been living with a relative specified in section 406(a) within six months prior to the month in which such proceedings were initiated, and would have received such aid in or for such month if in such month he had been living with such a relative and application therefor had been made, or

"(iii) is a child described in subparagraph (A)(ii), and

"(C) has been determined by the State, pursuant to subsection (c) of this section, to be a child with special needs.

Amount of payment.

"(2) The amount of the adoption assistance payments shall be determined through agreement between the adoptive parents and the State or local agency administering the program under this section, which shall take into consideration the circumstances of the adopting parents and the needs of the child being adopted, and may be readjusted periodically, with the concurrence of the adopting parents (which may be specified in the adoption assistance agreement), depending upon changes in such circumstances. However, in no case may the amount of the adoption assistance payment exceed the foster care maintenance payment which would have been paid during the period if the child with respect to whom the adoption assistance payment is made had been in a foster family home.

Restrictions.

"(3) Notwithstanding the preceding paragraph, (A) no payment may be made to parents with respect to any child who has attained the age of eighteen (or, where the State determines that the child has a mental or physical handicap which warrants the continuation of assistance, the age of twenty-one), and (B) no payment may be made to parents with respect to any child if the State determines that the parents are no longer legally responsible for the support of the child or if the State determines that the child is no longer receiving any support from such parents. Parents who have been receiving adoption assistance payments under this section shall keep the State or local agency administering the program under this section informed of circumstances which would, pursuant to this subsection, make them ineligible for such assistance payments, or eligible for assistance payments in a different amount.

"(4) For purposes of this part, individuals with whom a child (who has been determined by the State, pursuant to subsection (c), to be a child with special needs) is placed for adoption, pursuant to an interlocutory decree, shall be eligible for adoption assistance payments under this subsection, during the period of the placement, on the same terms and subject to the same conditions as if such individuals had adopted such child.

"(b) For purposes of titles XIX and XX, any child with respect to whom adoption assistance payments are made under this section shall be deemed to be a dependent child as defined in section 406 and shall be deemed to be a recipient of aid to families with dependent children under part A of this title. 42 USC 1396, 1397. 42 USC 606. 42 USC 601.

"(c) For purposes of this section, a child shall not be considered a child with special needs unless— Child with special needs.

"(1) the State has determined that the child cannot or should not be returned to the home of his parents; and

"(2) the State had first determined (A) that there exists with respect to the child a specific factor or condition (such as his ethnic background, age, or membership in a minority or sibling group, or the presence of factors such as medical conditions or physical, mental, or emotional handicaps) because of which it is reasonable to conclude that such child cannot be placed with adoptive parents without providing adoption assistance, and (B) that, except where it would be against the best interests of the child because of such factors as the existence of significant emotional ties with prospective adoptive parents while in the care of such parents as a foster child, a reasonable, but unsuccessful, effort has been made to place the child with appropriate adoptive parents without providing adoption assistance under this section.

"(2)(A) The limitation in paragraph (1) shall apply—

42 USC 620.

"(3) For purposes of this subsection, a State's allotment for any fiscal year shall be the greater of—

"(A) the amount determined under paragraph (4);

"(B) The allotment for any State for each of the fiscal years 1981 through 1984 shall be an amount equal to such State's allotment for the preceding fiscal year, increased or decreased by a percentage equal to twice the percentage increase or decrease (as the case may be) (but not to exceed an increase or decrease of 10 percent) in the Consumer Price Index prepared by the Department of Labor, and used in determining cost-of-living adjustments under section 215(i) of this Act, for the second quarter of the preceding fiscal year as compared to such index for the second quarter of the second preceding fiscal year. Post, p. 512.

"(C) The base amount shall be equal to the amount of the Federal funds payable to such State for fiscal year 1978 under section 403 on account of expenditures for aid with respect to which Federal financial participation is authorized in payments pursuant to section 408 (including administrative expenditures attributable to the provision of such aid as determined by the Secretary) and for those States which in fiscal year 1978 did not make foster care maintenance payments under section 408 on behalf of children otherwise eligible for such payment, solely because their foster care was provided by related persons, shall be equal to the total amount of Federal funds the State would have been entitled to be paid under section 403 on account of expenditures pursuant to section 408 for that fiscal year if such payments had been made. In the event that there is a dispute between any State and the Secretary as to the amount of such expenditures for such fiscal year, then, until the beginning of the fiscal year immediately following the fiscal year in which the dispute is finally resolved, the base amount shall be deemed to be the amount of Federal funds which would have been payable under section 403 if the amount of such expenditures were equal to the amount thereof claimed by the State.

"(5)(A) For purposes of paragraph (3)(C), a State's allotment for any fiscal year ending after September 30, 1980, and before October 1, 1984, may, at the option of the State (and if the State meets the requirements of subparagraphs (B) and (C)), be determined by application of the provisions of paragraph (4) with the following modifications:

"(i) The base amount for purposes of determining an allotment for any such fiscal year shall be equal to the base amount determined under paragraph (4)(C) increased by a percentage equal to the percentage by which the average monthly number of children in such State receiving aid with respect to which Federal financial participation is authorized in payments pursuant to section 408, or receiving foster care maintenance payments with respect to which Federal financial participation is authorized under this part, for such fiscal year exceeds the average monthly number of such children for fiscal year 1978.

Post, p. 512.

"(ii) For purposes of clause (i), the percentage determined under such clause shall not exceed 33.1 percent in the case of fiscal year 1981, 46.4 percent in the case of fiscal year 1982, 61.1 percent in the case of fiscal year 1983, or 77.2 percent in the case of fiscal year 1984.

"(B) No State may exercise the option to have its allotment amount determined under the provisions of this paragraph unless, for fiscal year 1978, the average monthly number of children in such State receiving aid for which Federal financial participation is authorized in payments pursuant to section 408 as a percentage of the under age eighteen population of such State, was less than the average such percentage for the fifty States and the District of Columbia.

"(C) No State may exercise the option to have its allotment determined under this paragraph for any fiscal year other than fiscal year 1981 after the first fiscal year (after fiscal year 1978) with respect to which the average monthly number of children in such State receiving aid for which Federal financial participation is authorized in payments pursuant to section 408, or receiving foster care maintenance payments for which Federal financial participation is authorized under this part, as a percentage of the under age eighteen population of such State, was equal to or greater than the average such percentage for the fifty States and the District of Columbia for the fiscal year 1978. Any allotment determined under this paragraph for a State which opted to have its allotment so determined under this paragraph for the fiscal year prior to the first fiscal year for which its option may not be exercised by reason of the preceding sentence shall be considered to be such State's allotment for such prior fiscal year for purposes of determining allotments for subsequent fiscal years under paragraph (4).

"(D) In determining the number of children receiving aid for which Federal financial participation is authorized in payments under section 408 or under this part, for any fiscal year, with respect to any State and with respect to the national average for purposes of subparagraphs (B) and (C), there shall be included those children with respect to whom foster care maintenance payments were not made under section 408 or this part (though they were otherwise eligible for such payments) solely because their foster care was provided by related persons. In the event that there is a dispute between any State and the Secretary as to the number of such children (with respect to whom foster care maintenance payments were not made) for any fiscal year, then until the beginning of the fiscal year immediately following the fiscal year in which the dispute is finally resolved, determinations under subparagraphs (B) and (C) shall be

94 STAT. 509

made on the basis of the number of such children claimed by the State.

Interim and final allotment amounts.

"(E) The Secretary shall promulgate an interim allotment amount for purposes of this paragraph for each fiscal year for each State exercising its option to have its allotment determined under this paragraph, based on the most recent satisfactory data available, not later than six months after the beginning of such fiscal year. The amount of such allotment shall be adjusted, and the final allotment amount shall be promulgated, based on the most recent satisfactory data available, not later than nine months after the end of such fiscal year.

"(6) Except in the case of a State which loses the option of having its allotment determined under paragraph (5) by reason of the provisions of paragraph (5)(C), and subject to the provisions of such paragraph (5)(C), the amount of any allotment as determined in accordance with subparagraph (A), (B), or (C) of paragraph (3) for any fiscal year for any State shall be determined in accordance with the provisions of such subparagraph, without regard to the amount of such State's allotment for any prior fiscal year as determined in accordance with another such subparagraph.

State reimbursements.

"(c)(1) Except as provided in paragraphs (3) and (4), for any of the fiscal years 1981 through 1984 during which the limitation under subsection (b)(1) is in effect, sums available to a State from its allotment under subsection (b) for carrying out this part, which the State does not claim as reimbursement for expenditures in such year pursuant to subsection (a) of this section, may be claimed by the State as reimbursement for expenditures in such year pursuant to part B of this title, in addition to sums available pursuant to section 420 for carrying out part B.

Post, p. 516.

"(2) Except as provided in paragraphs (3) and (4), for any of the fiscal years 1981 through 1984 during which the limitation under subsection (b)(1) is not in effect, a State may claim as reimbursement for expenditures for such year pursuant to part B of this title, in addition to amounts claimed under section 420, an amount equal to the amount by which the State's allotment amount for such fiscal year (as determined under subsection (b)(3)) exceeds the amount claimed by such State for such fiscal year as reimbursement for expenses relating to foster care under subsection (a); except that the total amount claimed by such State for such fiscal year under this paragraph, when added to the amount that such State receives for such fiscal year under section 420, may not exceed the amount that would have been payable to such State under section 420 for such fiscal year if the relvant amount described in subsection (b)(2)(A) had been appropriated for such fiscal year.

"(3) The provisions of paragraphs (1) and (2) shall not apply for any fiscal year with respect to any State which, with respect to such fiscal year, exercised its option to have its allotment amount determined under subsection (b)(5).

"(4)(A) No State may claim an amount under the provisions of this subsection as reimbursement for expenditures for any fiscal year pursuant to part B of this title to the extent that such amount, plus the amount claimed by such State for such fiscal year under section 420, exceeds the amount which would be allotted to such State under part B if the amount appropriated under section 420 were $141,000,000, unless such State has met the requirements set forth in section 427(a).

Post, p. 519.

94 STAT. 510

"(B) If, for each of any two consecutive fiscal years, there is appropriated under section 420 a sum equal to $266,000,000, no State may claim any amount under the provisions of this subsection as reimbursement for expenditures for any succeeding fiscal year pursuant to part B of this title unless such State has met the requirements set forth in section 427(b).

Post, p. 516.
Post, p. 519.

"(C) If, for each of any two fiscal years during which the limitation under subsection (b)(1) is not in effect, the total amount claimed by a

State as reimbursement for expenditures pursuant to part B under this subsection and under section 420 equals the amount which would be allotted to such State for such fiscal year under part B if the amount appropriated under section 420 were $266,000,000, such State may not claim any amount under the provisions of paragraph (2) as reimbursement for expenditures for any succeeding fiscal year pursuant to part B of this title unless such State has met the requirements set forth in section 427(b).

"(C) with respect to each such child, procedural safeguards will be applied, among other things, to assure each child in foster care under the supervision of the State of a dispositional hearing to be held, in a family or juvenile court or another court (including a tribal court) of competent jurisdiction, or by an administrative body appointed or approved by the court, no later than eighteen months after the original placement (and periodically thereafter during the continuation of foster care), which hearing shall determine the future status of the child (including, but not limited to, whether the child should be returned to the parent, should be continued in foster care for a specified period, should be placed for adoption, or should (because of the child's special needs or circumstances) be continued in foster care on a permanent or long-term basis); and procedural safeguards shall also be applied with respect to parental rights pertaining to the removal of the child from the home of his parents, to a change in the child's placement, and to any determination affecting visitation privileges of parents.

(a) Notwithstanding any other provision of this part, a State plan for aid and services to needy families with children shall not be regarded as failing to comply with the requirements imposed under this part solely because, under such plan, in any case in which one or more children live in any household—

"(1)(A) in which the total income of such child or children and the closely related family members (as defined in subsection (b)) living in the same household equals or exceeds the standard of need under such plan for a family equal in number to the total number of such children and closely related family members in the same household, or (B) where the income of children and family members cannot be determined due to failure to cooperate, and

"(2) If such plan provides for meeting less than 100 per centum of such standard, and designates a portion of that standard, for families of specified sizes, to meet such expenses, then an amount equal to that portion, multiplied by the proportion of the standard of need which such State pays as aid to families with dependent children, shall be considered the total amount for such expenses for a family of the specified size.

SHORT TITLE

42 USC 1305 note.

SEC. 6. Sections 6 to 10 of this Act may be cited as the "Parental Kidnaping Prevention Act of 1980".

FINDINGS AND PURPOSES

28 USC 1738A note.

SEC. 7. (a) The Congress finds that—

(1) there is a large and growing number of cases annually involving disputes between persons claiming rights of custody and visitation of children under the laws, and in the courts, of different States, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States;

(2) the laws and practices by which the courts of those jurisdictions determine their jurisdiction to decide such disputes, and the effect to be given the decisions of such disputes by the courts of other jurisdictions, are often inconsistent and conflicting;

(3) those characteristics of the law and practice in such cases, along with the limits imposed by a Federal system on the authority of each such jurisdiction to conduct investigations and

94 STAT. 3569

take other actions outside its own boundaries, contribute to a tendency of parties involved in such disputes to frequently resort to the seizure, restraint, concealment, and interstate transportation of children, the disregard of court orders, excessive relitigation of cases, obtaining of conflicting orders by the courts of various jurisdictions, and interstate travel and communication that is so expensive and time consuming as to disrupt their occupations and commercial activities; and

(4) among the results of those conditions and activities are the failure of the courts of such jurisdictions to give full faith and credit to the judicial proceedings of the other jurisdictions, the deprivation of rights of liberty and property without due process of law, burdens on commerce among such jurisdictions and with foreign nations, and harm to the welfare of children and their parents and other custodians.

National system of locating parents, establishment.

(b) For those reasons it is necessary to establish a national system for locating parents and children who travel from one such jurisdiction to another and are concealed in connection with such disputes, and to establish national standards under which the courts of such jurisdictions will determine their jurisdiction to decide such disputes and the effect to be given by each such jurisdiction to such decisions by the courts of other such jurisdictions.

(c) The general purposes of sections 6 to 10 of this Act are to—

(1) promote cooperation between State courts to the end that a determination of custody and visitation is rendered in the State which can best decide the case in the interest of the child;

(2) promote and expand the exchange of information and other forms of mutual assistance between States which are concerned with the same child;

(3) facilitate the enforcement of custody and visitation decrees of sister States;

(4) discourage continuing interstate controversies over child custody in the interest of greater stability of home environment and of secure family relationships for the child;

(5) avoid jurisdictional competition and conflict between State courts in matters of child custody and visitation which have in the past resulted in the shifting of children from State to State with harmful effects on their well-being; and

(6) deter interstate abductions and other unilateral removals of children undertaken to obtain custody and visitation awards.

FULL FAITH AND CREDIT GIVEN TO CHILD CUSTODY DETERMINATIONS

28 USC 1731 *et seq.*

SEC. 8. (a) Chapter 115 of title 28, United States Code, is amended by adding immediately after section 1738 the following new section:

28 USC 1738A.

"§1738A. Full faith and credit given to child custody determinations

"(a) The appropriate authorities of every State shall enforce according to its terms, and shall not modify except as provided in subsection (f) of this section, any child custody determination made consistently with the provisions of this section by a court of another State.

Definitions.

"(b) As used in this section, the term—

"(1) 'child' means a person under the age of eighteen;

"(2) 'contestant' means a person, including a parent, who claims a right to custody or visitation of a child;

"(3) 'custody determination' means a judgment, decree, or other order of a court providing for the custody or visitation of a child, and includes permanent and temporary orders, and initial orders and modifications;

94 STAT. 3570

"(4) 'home State' means the State in which, immediately preceding the time involved, the child lived with his parents, a parent, or a person acting as parent, for at least six consecutive months, and in the case of a child less than six months old, the State in which the child lived from birth with any of such persons. Periods of temporary absence of any of such persons are counted as part of the six-month or other period;

"(5) 'modification' and 'modify' refer to a custody determination which modifies, replaces, supersedes, or otherwise is made subsequent to, a prior custody determination concerning the same child, whether made by the same court or not;

"(6) 'person acting as a parent' means a person, other than a parent, who has physical custody of a child and who has either been awarded custody by a court or claims a right to custody;

"(7) 'physical custody' means actual possession and control of a child; and

"(8) 'State' means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or a territory or possession of the United States.

"(c) A child custody determination made by a court of a State is consistent with the provisions of this section only if—

"(1) such court has jurisdiction under the law of such State; and

"(2) one of the following conditions is met:

"(A) such State (i) is the home State of the child on the date of the commencement of the proceeding, or (ii) had been the child's home State within six months before the date of the commencement of the proceeding and the child is absent from such State because of his removal or retention by a contestant or for other reasons, and a contestant continues to live in such State;

"(B)(i) it appears that no other State would have jurisdiction under subparagraph (A), and (ii) it is in the best interest of the child that a court of such State assume jurisdiction because (I) the child and his parents, or the child and at least one contestant, have a significant connection with such State other than mere physical presence in such State, and (II) there is available in such State substantial evidence concerning the child's present or future care, protection, training, and personal relationships;

"(C) the child is physically present in such State and (i) the child has been abandoned, or (ii) it is necessary in an emergency to protect the child because he has been subjected to or threatened with mistreatment or abuse;

"(D)(i) it appears that no other State would have jurisdiction under subparagraph (A), (B), (C), or (E), or another State has declined to exercise jurisdiction on the ground that the State whose jurisdiction is in issue is the more appropriate forum to determine the custody of the child, and (ii) it is in the best interest of the child that such court assume jurisdiction; or

"(E) the court has continuing jurisdiction pursuant to subsection (d) of this section.

"SEC. 1129. (a) If an entity provides services reimbursable on a cost-related basis under title V or XIX, as well as services reimbursable on such a basis under title XVIII, the Secretary shall require, as a condition for payment to any State under title V or XIX with respect to administrative costs incurred in the performance of audits of the books, accounts, and records of that entity, that these audits be coordinated through common audit procedures with audits performed with respect to the entity for purposes of title XVIII. Where the Secretary finds that a State has declined to participate in such a common audit with respect to title V or XIX, he shall reduce the payments otherwise due such State under such title by an amount which he estimates to be in excess of the amount that would have been apportioned to the State under the title (for the expenses of the Sate incurred in the common audit) if it had participated in the common audit.

(3) Any State entering into an agreement with the Secretary under this section must—

(A) provide that the demonstration project shall be administered by a State health services agency designated for this purpose by the Governor (which may be the State agency administering or responsible for the administration of the State plan for medical assistance under title XIX of the Social Security Act);

Under such agreement the Secretary shall pay to the State, as an additional payment under section 1903 of the Social Security Act for each quarter, an amount equal to 90 percent of the reasonable costs incurred (less the Federal share of any related fees collected) by such State during such quarter in carrying out a demonstration project under this section, including reasonable wages and other employment costs of eligible participants employed full time under such project (and, for purposes of determining the amount of such additional payment, the 10 percent referred to in subsection (c)(6), paid by the Veterans' Administration, shall be deemed to be a cost incurred by the State in carrying out such a project). 42 USC 1396b.

(2) Demonstration projects under this section shall be of a maximum duration of four years, plus an additional time period of up to

TITLE III—LOW-INCOME ENERGY ASSISTANCE

Home Energy Assistance Act of 1980.

94 STAT. 288

SHORT TITLE

Sec. 301. This title may be cited as the "Home Energy Assistance Act of 1980". 42 USC 8601 note.

STATEMENT OF FINDINGS AND PURPOSE

Sec. 302. (a) The Congress finds that— 42 USC 8601.

(1) recent dramatic increases in the cost of primary energy sources have caused corresponding sharp increases in the cost of home energy;

(2) reliable data projections show that the cost of home energy will continue to climb at excessive rates;

(3) the cost of essential home energy imposes a disproportionately larger burden on fixed-income, lower income, and lower middle income households and the rising cost of such energy is beyond the control of such households;

(4) fixed-income, lower-income, and lower-middle-income households should be protected from disproportionately adverse effects on their incomes resulting from national energy policy;

(5) adequate home heating is a necessary aspect of shelter and the lack of home heating poses a threat to life, health, or safety;

(6) adequate home cooling is necessary for certain individuals to avoid a threat to life, health, or safety;

(7) low-income households often lack access to energy supplies because of the structure of home energy distribution systems and prevailing credit practices; and

(8) assistance to households in meeting the burden of rising energy costs is insufficient from existing State and Federal sources.

(b) It is the purpose of this title to make grants to States to provide assistance to eligible households to offset the rising costs of home energy that are excessive in relation to household income. Grants.

DEFINITIONS

Sec. 303. As used in this title— 42 USC 8602.

(2) "home energy" means a source of heating or cooling in residential dwellings;

(3) "lower living standard income level" means the income level (adjusted for regional, metropolitan, and nonmetropolitan differences and family size) determined annually by the Secretary of Labor based upon the most recent "lower living standard family budget" issued by the Secretary of Labor;

(4) "Secretary" means the Secretary of Health, Education, and Welfare; and

(5) "State" means each of the several States and the District of Columbia.

(b) Notwithstanding clause (1) of subsection (a), a household which is eligible for supplemental security income payments under title XVI of the Social Security Act, but not eligible under subsection (a)(1)(A), (C), or (D) of this section, shall not be considered eligible for home energy assistance under this title if the eligibility of a household is dependent upon—

42 USC 1382.
42 USC 1396.

(1) an individual whose annual supplemental security income benefit rate is reduced pursuant to section 1611(e)(1) of the Social Security Act by reason of being in an institution receiving payments (under title XIX of that Act) with respect to that individual,

ALLOTMENTS

42 USC 8605.

SEC. 306. (a)(1) From 95 per centum of the sums appropriated pursuant to section 304(b) for the fiscal year 1981, the Secretary shall allot to each State an amount which bears the same ratio to one-half of such 95 per centum as the aggregate residential energy expenditure in such State bears to the aggregate residential energy expenditure for all States.

94 STAT. 290

(2) From 95 per centum of such sums, the Secretary shall allot to each State an amount which bears the same ratio to one-half of such

95 per centum as the total number of heating degree days in such State squared, multiplied by the number of households in such State having incomes equal to or less than the lower living standard income level, bears to the sum of such products for all States.

(3)(A) If the allotment for any State determined under paragraphs (1) and (2) of this subsection is less than $100,000,000, the allotment of such State shall, subject to paragraphs (6) and (8) of this subsection, be the greater of its allotment as so determined under paragraphs (1) and (2) or the product of the total amount available for allotment under paragraphs (1) and (2) of this subsection and such State's alternative allotment percentage.

(B) If the allotment for any State determined under paragraphs (1) and (2) of this subsection is equal to or more than $100,000,000, the allotment of such State shall, subject to paragraphs (6) and (8) of this subsection and subparagraph (C) of this paragraph, be the greater of its allotment as so determined under such paragraphs (6) and (8) or the product of the total amount available for allotment under paragraphs (1) and (2) of this subsection and such State's alternative allotment percentage.

Appropriation authorization.

(C) There is authorized to be appropriated amounts not in excess of $90,000,000 for the fiscal year 1981 for the additional amounts to be allocated pursuant to subparagraph (B) of this paragraph.

(4) The alternative allotment percentage for any State shall be equal to (A) the percentage of 95 per centum of the total amount appropriated for the fiscal year pursuant to section 304(b) which the State would receive if its allotment were increased from the $25,000,000 authorized under this subsection to the extent necessary (as determined by the Secretary on the basis of what he determines to be the best available information) so that, if such allotment were divided in a manner such that the amount for all recipient households in such State consisting of only one individual were equal, and the amount for all other recipient households in such State were equal to 150 per centum of such amount for a one-individual household, sufficient additional amounts would be available to assure that the amount for each recipient household would be at least $120, or, unless the percentage determined under subparagraph (A) would be higher, (B) the percentage of 90 per centum of the total amount authorized to be appropriated for fiscal year 1981 under section 304(b) which would be allotted to such State if—

(i) of such 90 per centum (I) one-half was allotted to each State according to the ratios determined under paragraph (1) of subsection (a) of this section and (II) one-half was allotted to each State according to the ratios which would be determined under paragraph (2) of such subsection (a) if, for purposes of such paragraph, the word "squared" were deleted and the term "lower living standard" were defined as 125 per centum of the poverty level as determined in accordance with the criteria established by the Office of Management and Budget; and

(ii) the allotment of each State as determined under subdivision (i) were increased to the extent necessary (as determined by the Secretary on the basis of what he determines to be the best available information) so that, if such allotment were divided in a manner such that the amount for all recipient households in such State consisting of only one individual were equal, and the amount for all other recipient households in such State were equal to 150 per centum of such amount for a one-individual household, sufficient additional amounts would be available to assure that the amount for each recipient household would be at least $120.

94 STAT. 291

Appropriation authorization.

There are authorized to be appropriated $25,000,000 for the fiscal year 1981 for the additional amounts to be allocated to States pursuant to the application of subparagraph (A) of this paragraph. In the event that the aggregate of such additional amounts would exceed the amount appropriated under the preceding sentence, the additional amount applicable to each State shall be reduced on a pro rata basis.

"Recipient household."

(5) For purposes of this subsection, the term "recipient household" means—

7 USC 2012.

(A) a household that is an eligible household under section 3(i) of the Food Stamp Act of 1977 and participates in the food stamp program, but which is not a recipient household under subparagraph (B) or (C) of this paragraph;

42 USC 601.

(B) a household that contains any individual who receives aid to families with dependent children under a State plan approved under part A of title IV of the Social Security Act, but which is not a recipient household under subparagraph (C); and

42 USC 1382e.
87 Stat. 155.

(C) a household that contains an individual who is an eligible individual or eligible spouse receiving supplemental security income benefits under title XVI of the Social Security Act, or an individual receiving payments from the Secretary under an agreement entered into by the Secretary under section 1616 of such Act or section 212 of Public Law 93-66.

For purposes of subparagraphs (B) and (C) the term "household" shall be defined by the Secretary, and shall not include an institution.

(6) The allotment of any State shall be increased under paragraph (3) of this subsection only if the increase is attributable in whole or part to the provisions of subparagraph (A) or (B)(ii) of paragraph (4).

(7) If the allotment for any State determined under paragraphs (1) and (2) of this subsection (without the application of paragraph (8)), is less than the lower of—

(A) the amount which would be allotted to such State if "one-half" in paragraph (1) of this subsection were replaced by "one-quarter" and "one-half" in paragraph (2) of this subsection were replaced by "three-quarters"; or

(B) the amount which would be allotted to such State if the word "squared" in paragraph (2) of this subsection were deleted,

then the allotment of such State shall, subject to paragraph (8) of this subsection, be increased to the lower of the allotment it would receive under subparagraph (A) or (B).

(8) The allotments for any fiscal year determined under paragraphs (1) and (2) of this subsection which are not increased pursuant to paragraphs (3)(A) and (7) of this subsection shall be adjusted to the extent necessary and on a pro rata basis to assure that the total of such allotments when added to the allotments which are increased pursuant to paragraphs (3)(A) and (7) of this subsection do not exceed the sum of (A) 95 per centum of the sums appropriated for such fiscal year pursuant to section 304(b) plus (B) the amount appropriated pursuant to the authorization in paragraph (4).

(9) If the amount appropriated for fiscal year 1981 is less than the sum of $3,000,000,000 plus such additional amounts as are necessary to carry out paragraphs (3) and (4), then each State's allotment shall be determined on the basis of an appropriation of such sum and shall be reduced on a pro rata basis as necessary.

94 STAT. 292

(b)(1) From the remainder of the sums appropriated pursuant to section 304(b) for each fiscal year, the Secretary shall—

(A) first reserve $2,500,000 to be apportioned on the basis of need between the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, Northern Mariana Islands, and the Trust Territory of the Pacific Islands, and

(B) then transfer to the Director of the Community Services Administration $100,000,000, subject to the provisions of the second sentence of this paragraph for carrying out energy crisis related activities under section 222(a)(5) of the Economic Opportunity Act of 1964.

The percentage of the amount transferred under subparagraph (B) of this paragraph and available for use in each State shall be the same percentage as the percentage allotted to such State under this section for the total amounts available for allotment to States under subsection (a) of this section. Twenty per centum of the total amount transferred under subparagraph (B) may be utilized without regard to the requirements of the preceding sentence.

(2) Each jurisdiction to which paragraph (1)(A) applies may receive grants under this title upon an application submitted to the Secretary containing provisions which describe the programs for which assistance is sought under this title, and which are consistent with the requirements of section 308(b) of this title.

Incentive grants to States.

(3)(A)(i) The remainder of the sums appropriated pursuant to section 304(b) shall be distributed for home energy assistance programs in accordance with the provisions of this subparagraph. The Secretary shall make incentive grants to States to pay a Federal share of incentive fuel assistance programs for residential energy costs established by any State to serve the same population as the population eligible under this title.

(ii) No grant may be made under this subparagraph unless the State makes an application to the Secretary containing such provisions which the Secretary deems necessary and which describes the State program for which assistance is sought under this subparagraph.

(iii) The Federal share for any fiscal year for Federal assistance under this subparagraph shall not exceed 25 per centum.

(B) That part of the remainder of the sums appropriated pursuant to section 304(b) which is not required to carry out the provisions of subparagraph (A) of this paragraph shall be distributed by the Secretary in accordance with the allocation formula contained in subsection (a) of this section.

(4)(A) From the sums appropriated pursuant to section 304(b) and made available under paragraph (1)(B) of this subsection, the Director shall reserve a sum not to exceed $3,000,000 in each fiscal year for outreach activities designed to assure that eligible households with elderly members are made aware of the assistance available under this title. The Director shall enter into agreements with national aging organizations to carry out the provisions of this subparagraph.

(B) No payment may be made by the Director under this paragraph to any national aging organization unless the Director determines that such outreach activities will be coordinated with State outreach activities required under section 308(b)(16).

(c) The portion of any State's allotment under subsection (a) for a fiscal year, which the Secretary determines will not be required for the period such allotment is available for carrying out the purposes of this title, shall be available for reallotment from time to time, on such dates during such period as the Secretary may fix, to other States based on need and ability to expend the funds consistent with the provisions of this title and taking into account the proportion of the original allotments made available to such States under subsection (a) for such year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum which the Secretary estimates such State needs and will be able to use for such period for carrying out such portion of its State application approved under this title, and the total reduction shall be similarly reallotted among the States whose proportionate amounts are not so reduced. In carrying out the requirements of this subsection the Secretary shall take into account the climatic conditions and such other relevant factors as may be necessary to assure that no State loses funds necessary to carry out the purposes of this title. Any amount reallotted to a State under this subsection during a year shall be deemed part of its allotment under subsection (a) for such year.

94 STAT. 293

(2) After considering any comments submitted during such period, the Secretary shall notify the chief executive of any decision to

reallocate funds, and shall publish such decision in the Federal Register.

(e) The aggregate residential energy expenditure for each State and for all States shall be determined by the Secretary after consulting with the Secretary of Energy.

(f) The allotments made under this section shall be made on the basis of the latest reliable data available to the Secretary.

Indian tribe members, benefits provision.

(g)(1) In any State in which the Secretary determines (after having taken into account the amount of funds available to the State) that the members of an Indian tribe are not receiving benefits under this title that are equivalent to benefits provided to other households in the State, and if the Secretary further determines that the members of such tribe would be better served by means of grants made directly to provide such benefits, the Secretary shall reserve from sums that would otherwise be allotted to such State not less than 100 per centum of an amount which bears the same ratio to the State's allotment for the fiscal year involved as the population of all eligible Indians for whom a determination under this paragraph has been made bears to the population of all eligible households in such State.

(2) The sums reserved by the Secretary on the basis of a determination under this subsection shall be granted to the tribal organization serving the individuals for whom such a determination has been made, or where there is no tribal organization, to such other entity as the Secretary determines has the capacity to provide assistance pursuant to this title.

Eligibility, submittal of plan.

(3) In order for a tribal organization or other entity to be eligible for an award for a fiscal year under this subsection, it shall submit to the Secretary a plan for such fiscal year which meets such criteria as the Secretary may prescribe by regulation.

Each such grant shall be made under such conditions as the Administrator shall determine to be required to insure that the United States will receive therefrom benefit adequate to justify the making of that grant. None of the funds appropriated for "Research and development" pursuant to this Act may be used in accordance with this subsection for the construction of any major facility, the estimated cost of which, including collateral equipment, exceeds $250,000, unless the Administrator or his designee has notified the Speaker of the House of Representatives and the President of the Senate and the Committee on Science and Technology of the House of Representatives and the Committee on Commerce, Science, and

The funds so made available may be expended to acquire, construct, convert, rehabilitate, or install permanent or temporary public works, including land acquisition, site preparation, appurtenances, utilities, and equipment. No portion of such sums may be obligated for expenditure or expended to construct, expand, or modify laboratories and other installations unless (A) a period of thirty days has passed after the Administrator or his designee has transmitted to the Speaker of the House of

94 STAT. 963

Representatives and to the President of the Senate and to the Committee on Science and Technology of the House of Representatives and to the Committee on Commerce, Science, and Transportation of the Senate a written report containing a full and complete statement concerning (1) the nature of such construction, expansion, or modification, (2) the cost thereof including the cost of any real estate action pertaining thereto, and (3) the reason why such construction, expansion, or modification is neccessary in the national interest, or (B) each such committee before the expiration of such period has transmitted to the Administrator written notice to the effect that such committee has no objection to the proposed action.

SEC. 4. Notwithstanding any other provision of this Act—

(1) no amount appropriated pursuant to this Act may be used for any program deleted by the Congress from requests as originally made to either the House Committee on Science and Technology or the Senate Committee on Commerce, Science, and Transportation,

(2) no amount appropriated pursuant to this Act may be used for any program in excess of the amount actually authorized for that particular program by subsections 1(a) and 1(c), and

(3) no amount appropriated pursuant to this Act may be used for any program which has not been presented to or requested of either such committee,

unless (A) a period of thirty days has passed after the receipt by the Speaker of the House of Representatives and the President of the Senate and each such committee of notice given by the Administrator or his designee containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or (B) each such committee before the expiration of such period has transmitted to the Administrator written notice to the effect that such committee has no objection to the proposed action.

Federal research funds, geographical distribution.
42 USC 2459 note.

SEC. 5. It is the sense of the Congress that it is in the national interest that consideration be given to geographical distribution of Federal research funds whenever feasible, and that the National Aeronautics and Space Administration should explore ways and means of distributing its research and development funds whenever feasible.

96th Congress

94 STAT. 2311

An Act

To promote United States technological innovation for the achievement of national economic, environmental, and social goals, and for other purposes.

Oct. 21, 1980
[S. 1250]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Stevenson-Wydler Technology Innovation Act of 1980".

Stevenson-Wydler Technology Innovation Act of 1980.
15 USC 3701 note.

15 USC 3701.

SEC. 2. FINDINGS.

The Congress finds and declares that:

(1) Technology and industrial innovation are central to the economic, environmental, and social well-being of citizens of the United States.

(2) Technology and industrial innovation offer an improved standard of living, increased public and private sector productivity, creation of new industries and employment opportunities, improved public services and enhanced competitiveness of United States products in world markets.

(3) Many new discoveries and advances in science occur in universities and Federal laboratories, while the application of this new knowledge to commercial and useful public purposes depends largely upon actions by business and labor. Cooperation among academia, Federal laboratories, labor, and industry, in such forms as technology transfer, personnel exchange, joint research projects, and others, should be renewed, expanded, and strengthened.

(4) Small businesses have performed an important role in advancing industrial and technological innovation.

(5) Industrial and technological innovation in the United States may be lagging when compared to historical patterns and other industrialized nations.

(6) Increased industrial and technological innovation would reduce trade deficits, stabilize the dollar, increase productivity gains, increase employment, and stabilize prices.

(7) Government antitrust, economic, trade, patent, procurement, regulatory, research and development, and tax policies have significant impacts upon industrial innovation and development of technology, but there is insufficient knowledge of their effects in particular sectors of the economy.

(8) No comprehensive national policy exists to enhance technological innovation for commercial and public purposes. There is a need for such a policy, including a strong national policy supporting domestic technology transfer and utilization of the science and technology resources of the Federal Government.

(9) It is in the national interest to promote the adaptation of technological innovations to State and local government uses. Technological innovations can improve services, reduce their costs, and increase productivity in State and local governments.

(10) The Federal laboratories and other performers of federally funded research and development frequently provide scientific and technological developments of potential use to State and local governments and private industry. These developments should be made accessible to those governments and industry. There is a need to provide means of access and to give adequate personnel and funding support to these means.

94 STAT. 2312

(11) The Nation should give fuller recognition to individuals and companies which have made outstanding contributions to the promotion of technology or technological manpower for the improvement of the economic, environmental, or social well-being of the United States.

SEC. 3. PURPOSE.

15 USC 3702.

It is the purpose of this Act to improve the economic, environmental, and social well-being of the United States by—

(1) establishing organizations in the executive branch to study and stimulate technology;

(2) promoting technology development through the establishment of centers for industrial technology;

(3) stimulating improved utilization of federally funded technology developments by State and local governments and the private sector;

(4) providing encouragement for the development of technology through the recognition of individuals and companies which have made outstanding contributions in technology; and

(5) encouraging the exchange of scientific and technical personnel among academia, industry, and Federal laboratories.

15 USC 3703.

SEC. 4. DEFINITIONS.

Such Centers shall be affiliated with any university, or other nonprofit institution, or group thereof, that applies for and is awarded a grant or enters into a cooperative agreement under this section. The objective of the Centers is to enhance technological innovation through—

(1) the participation of individuals from industry and universities in cooperative technological innovation activities;

(2) the development of the generic research base, important for technological advance and innovative activity, in which individual firms have little incentive to invest, but which may have significant economic or strategic importance, such as manufacturing technology;

(B) to meet health, safety, environmental, or national security needs which are not reasonably satisfied by the contractor or licensee; or

94 STAT. 35

An Act

To amend the Federal Aviation Act of 1958 in order to promote competition in international air transportation, provide greater opportunities for United States air carriers, establish goals for developing United States international aviation negotiating policy, and for other purposes.

Feb. 15, 1980
[S. 1300]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "International Air Transportation Competition Act of 1979".

International Air Transportation Competition Act of 1979.
49 USC 1301 note.

SEC. 2. Section 102(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1302(a)) is amended to read as follows:

"DECLARATION OF POLICY: THE BOARD

"FACTORS FOR INTERSTATE, OVERSEAS, AND FOREIGN AIR TRANSPORTATION

"SEC. 102. (a) In the exercise and performance of its powers and duties under this Act, the Board shall consider the following, among other things, as being in the public interest, and in accordance with the public convenience and necessity:

"(1) The assignment and maintenance of safety as the highest priority in air commerce, and prior to the authorization of new air transportation services, full evaluation of the recommendations of the Secretary of Transportation on the safety implications of such new services and full evaluation of any report or recommendation submitted under section 107 of this Act.

49 USC 1307.

"(2) The prevention of any deterioration in established safety procedures, recognizing the clear intent, encouragement, and dedication of the Congress to the furtherance of the highest degree of safety in air transportation and air commerce, and the maintenance of the safety vigilance that has evolved within air transportation and air commerce and has come to be expected by the traveling and shipping public.

"(3) The availability of a variety of adequate, economic, efficient, and low-price services by air carriers and foreign air carriers without unjust discriminations, undue preferences or advantages, or unfair or deceptive practices, the need to improve relations among, and coordinate transportation by, air carriers, and the need to encourage fair wages and equitable working conditions for air carriers.

"(4) The placement of maximum reliance on competitive market forces and on actual and potential competition (A) to provide the needed air transportation system, and (B) to encourage efficient and well-managed carriers to earn adequate profits and to attract capital, taking account, nevertheless, of material differences, if any, which may exist between interstate and overseas air transportation, on the one hand, and foreign air transportation, on the other.

94 STAT. 36

"(5) The development and maintenance of a sound regulatory environment which is responsive to the needs of the public and in which decisions are reached promptly in order to facilitate adaption of the air transportation system to the present and future needs of the domestic and foreign commerce of the United States, the Postal Service, and the national defense.

"(6) The encouragement of air service at major urban areas in the United States through secondary or satellite airports, where consistent with regional airport plans of regional and local authorities, and when such encouragement is endorsed by appropriate State entities encouraging such service by air carriers whose sole responsibility in any specific market is to provide service exclusively at the secondary or satellite airport, and fostering an environment which reasonably enables such carriers to establish themselves and to develop their secondary or satellite airport services.

"(7) The prevention of unfair, deceptive, predatory, or anticompetitive practices in air transportation, and the avoidance of—

"(A) unreasonable industry concentration, excessive market domination, and monopoly power; and

"(B) other conditions;

that would tend to allow one or more air carriers or foreign air carriers unreasonably to increase prices, reduce services, or exclude competition in air transportation.

"(8) The maintenance of a comprehensive and convenient system of continuous scheduled interstate and overseas airline service for small communities and for isolated areas in the United States, with direct Federal assistance where appropriate.

"(9) The encouragement, development, and maintenance of an air transportation system relying on actual and potential competition to provide efficiency, innovation, and low prices, and to determine the variety, quality, and price of air transportation services.

"(10) The encouragement of entry into air transportation markets by new air carriers, the encouragement of entry into additional air transportation markets by existing air carriers, and the continued strengthening of small air carriers so as to assure a more effective, competitive airline industry.

"(11) The promotion, encouragement, and development of civil aeronautics and a viable, privately owned United States air transport industry.

"(12) The strengthening of the competitive position of United States air carriers to at least assure equality with foreign air carriers, including the attainment of opportunities for United States air carriers to maintain and increase their profitability, in foreign air transportation.".

If, after hearing, the Board shall be of the opinion that such rate, fare, or charge, or such classification, rule, regulation, or practice, is or will be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or in the case of a tariff filed by a foreign air carrier if the Board concludes with or without hearing that such action is in the public interest, the Board may take action to reject or cancel such tariff and prevent the use of such rate, fare, or charge, or such classification, rule, regulation, or practice. The Board may at any time rescind the suspension of such tariff and permit the use of such rate, fare, or charge, or such classification, rule, regulation, or practice. If the proceeding has not been concluded and an order made within the period of suspension or suspensions, or if the Board shall otherwise so direct, the proposed rate, fare, charge, classification, rule, regulation, or practice shall go into effect subject, however, to being canceled when the proceeding is concluded. During the period of any suspension or suspensions, or following rejection or cancellation of a tariff, including tariffs which have gone into effect provisionally, the affected air carrier or foreign air carrier shall maintain in effect and use the rate, fare, or charge, or the classification, rule, regulation, or practice affecting such rate, fare, or charge, or the value of service thereunder which was in effect immediately prior to the filing of the new tariff or such other rate, fare or charge as may be provided for under an applicable intergovernmental agreement or understanding. If the suspension, rejection, or cancellation is of an initial tariff, the affected air carrier or foreign air carrier may file for purposes of operations pending effectiveness of a new tariff, a tariff embodying any rate, fare, or charge, or any classification, rule, regulation, or practice affecting such rate, fare, or charge, or the value of service thereunder, that may be currently in effect (and not subject to a suspension order) for any air carrier engaged in the same foreign air transportation.".

Suspension of tariff.

"(2) With respect to any existing tariff of an air carrier or foreign air carrier stating rates, fares, or charges for foreign air transportation, or any classification, rule, regulation, or practice affecting such rate, fare, or charge, or the value of the service thereunder, the Board is empowered, upon complaint or upon its own initiative, at once and, if it so orders, without answer or other formal pleading by the air carrier or foreign air carrier, but upon reasonable notice, to enter into a hearing concerning the lawfulness of such rate, fare, or charge, or such classification, rule, regulation, or practice; and pending such hearing and the decision thereon, or in the case of a tariff filed by a foreign air carrier if such action is in the public interest, the Board upon reasonable notice, and by filing with such tariff, and delivering to the air carrier or foreign air carrier affected thereby, a statement in writing of its reasons for such suspension, and the effective date thereof, may suspend the operation of such tariff and defer the use of such rate, fare, or charge, or such classification, rule, regulation, or practice, following the effective date of such suspension, for a period or periods not exceeding 365 days in the aggregate from the effective date of such suspension. If, after hearing, the Board shall be of the opinion that such rate, fare, or charge, or such classification, rule, regulation, or practice, is or will be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or in the case of a tariff filed by a foreign air carrier if the Board concludes with or without hearing that such action is in the public interest, the Board may take action to cancel such tariff and prevent the use of such rate, fare, or charge, or such classification, rule, regulation, or practice. If the proceeding has not been concluded within the period of suspension or suspensions, the tariff shall again go into effect subject, however, to being canceled when the proceeding is concluded. For the purposes of operation during the period of such suspension, or the period following cancellation of an existing tariff pending effectiveness of a new tariff, the air carrier or foreign air carrier may file a tariff embodying any rate, fare, or charge, or any classification, rule, regulation, or practice affecting such rate, fare, or charge, or the value of service thereunder, that may be currently in effect (and not subject to a suspension order) for any air carrier engaged in the same foreign air transportation.".

Discriminatory, predatory, or anticompetitive practices.

"(b)(1) Whenever the Civil Aeronautics Board, upon complaint or upon its own initiative, determines that a foreign government or instrumentality, including a foreign air carrier (A) engages in unjustifiable or unreasonable discriminatory, predatory, or anticompetitive practices against a United States air carrier or (B) imposes unjustifiable or unreasonable restrictions on access of a United States air carrier to foreign markets, the Board may take such action as it deems to be in the public interest to eliminate such practices or restrictions. Such actions may include, but are not limited to, the denial, transfer, alteration, modification, amendment, cancellation, suspension, limitation, or revocation of any foreign air carrier permit or tariff pursuant to the powers of the Board under the Federal Aviation Act of 1958.

49 USC 1301 note.
Complaint, filing.

"(2) Any United States air carrier or any agency of the Government of the United States may file a complaint under this section with the Civil Aeronautics Board. The Board shall approve, deny, dismiss, set such complaint for hearing or investigation, or institute other proceedings proposing remedial action within 60 days after receipt of the complaint. The Board may extend the period for taking such action for an additional period or periods of up to 30 days each if the Board concludes that it is likely that the complaint can be satisfactorily resolved through negotiations with the foreign government or instrumentality during such additional period, but in no event may the aggregate period for taking action under this subsection exceed 180 days from receipt of the complaint. In considering any complaint, or in any proceedings under its own initiative, under this subsection the Board shall (A) solicit the views of the Department of State and the Department of Transportation and (B) provide any affected air carrier or foreign air carrier with reasonable notice and such opportunity to file written evidence and argument as is consistent with acting on the complaint within the time limits set forth in this subsection.

Solicitation of views.

SEC. 24. (a) Section 1002(j) of the Federal Aviation Act of 1958 (49 U.S.C. 1482(j)) is amended by adding at the end thereof the following new paragraphs:

94 STAT. 46

Foreign air fares.

"(6) The Board shall not have authority to find any fare for foreign air transportation of persons to be unjust or unreasonable on the basis that such fare is too low or too high if—

"(A) with respect to any proposed increase filed with the Board on or after the date of enactment of this paragraph, and before the 180th day after such date of enactment, such proposed fare would not be more than the standard foreign fare level for the same or essentially similar class of service. No such fare shall be suspended, unless the Board determines that it may be unduly preferential, unduly prejudicial, or unjustly discriminatory or that suspension is in the public interest because of unreasonable regulatory actions by a foreign government with respect to fare proposals of an air carrier; or

"(B) with respect to any proposed increase filed with the Board after the 180th day after the date of enactment of this paragraph such proposed fare would not be more than 5 percent higher than the standard foreign fare level for the same or essentially similar class of service. No such fare shall be suspended, unless the Board determines that it may be unduly preferential, unduly prejudicial, or unjustly discriminatory or that suspension is in the public interest because of unreasonable regulatory actions by a foreign government with respect to fare proposals of an air carrier; or

"(C) with respect to any proposed decrease filed after the date of enactment of this paragraph, the fare would not be more than 50 percent lower than the standard foreign fare level for the same or essentially similar class of service, except that this provision shall not apply to any proposed decrease in any fare if the Board determines that such proposed fare may be predatory or discriminatory or that suspension of any such fare is required because of unreasonable regulatory actions by a foreign government with respect to fare proposals by an air carrier.

"Standard foreign fare level."

"(7) For purposes of this subsection, 'standard foreign fare level' means that fare level (as adjusted only in accordance with paragraph (9) of this subsection) filed for and permitted by the Civil Aeronautics Board to go into effect on or after October 1, 1979 and before the 180th day after the date of enactment of this paragraph (with seasonal fares adjusted by the percentage difference that prevailed between seasons in 1978), or the fare level established under paragraph (8), for each pair of points, for each class of fare existing on that date, and in effect on the effective date of the establishment of each additional class of fare established after October 1, 1979.

Unjust or unreasonable fares, determination.

"(8)(A) The Board is authorized, on the basis of oral evidentiary hearings before an administrative law judge, to determine that a fare between two points on October 1, 1979 is unjust or unreasonable. Such oral evidentiary hearing shall be completed within 180 days of enactment of this section, and the Board may establish such deadlines including the deadline for the judge's decision as the Board may deem necessary to meet such requirement. If the Board determines that such a fare is unjust or unreasonable, the Board shall, on the basis of such hearing record, establish the standard foreign fare level between such points.

"(B) Standard foreign fare levels shall not be established under this paragraph for points between which the passengers carried by United States carriers in foreign air transportation are, in the aggregate, more than 25 percent of the total passengers carried by United States air carriers in foreign air transportation during the most recent 12-month period for which data is available.

94 STAT. 47

"(C) The establishment of a standard foreign fare level under this paragraph does not permit a reduction in fares.

"(D) No standard foreign fare level established under this paragraph shall take effect on or before the 180th day after the date of enactment of this paragraph.

"(E) The authority given the Board by subparagraph (A) of this paragraph shall expire on the 180th day after the date of enactment of this paragraph.

Fare adjustment.

"(9) The Board shall, within 30 days after the date of enactment of this paragraph, and not less often than every 60 days thereafter with respect to fuel costs and not less often than every 180 days with respect to all other costs, adjust each standard foreign fare level for the particular foreign air transportation to which such standard foreign fare level applies by increasing or decreasing such standard foreign fare level, as the case may be, by the percentage change from the last previous period in the actual operating cost per available seatmile. In determining the standard foreign fare level, the Board shall make no adjustment to costs acutally incurred. In establishing standard foreign fare levels and making the adjustments called for in this paragraph, the Board may use all relevant or appropriate information reasonably available to it.

"(10) The Board may by rule increase the percentage specified in paragraph (6)(C) of this subsection.".

(b) Section 403(c)(1) of the Federal Aviation Act of 1958 (49 U.S.C. 1373(c)(1)) is amended by (1) inserting the words "or foreign air carrier" after the words "air carrier" each time those words appear therein and (2) inserting the words "or foreign air carrier's" after the words "air carrier's".

(c) Section 403(c)(2) of the Federal Aviation Act of 1958 (49 U.S.C. 1373(c)(2)) is amended to read as follows:

"(2) If the effect of any proposed tariff change would be to institute a fare that is outside of the applicable range of fares specified in subparagraphs (A) and (B) of section 1002(d)(4) or subparagraphs (A), (B), and (C) of section 1002(j)(6) of this Act, or specified by the Board under section 1002(d)(7) or section 1002(j)(9) of this Act, or would be to institute a fare to which such range of fares does not apply, then such proposed change shall not be implemented except after 60 days' notice filed in accordance with regulations prescribed by the Board.".

SEC. 25. Section 1002(c) of the Federal Aviation Act of 1958 (49 U.S.C. 1482(c)) is amended by inserting the words ", subject to section 1102(a) of this Act," immediately before the words "issue an appropriate order".

Commingling of passengers.

"(1) Notwithstanding any other provision of this title, no air carrier providing air transportation under a certificate issued under this section shall commingle, on the same flight, passengers being transported in interstate, overseas, or foreign charter air transportation with passengers being transported in scheduled interstate, overseas, or foreign air transportation, except that this subsection shall not apply to the carriage of passengers in air transportation under group fare tariffs.".

(b) Paragraph (1) of section 401(n) of the Federal Aviation Act of 1958 (49 U.S.C. 1371(n)(1)) and the authority of the Civil Aeronautics Board with respect to such paragraph shall cease to be in effect on December 31, 1981.

To provide assistance to airport operators to prepare and carry out noise compatibility programs, to provide assistance to assure continued safety in aviation, and for other purposes.

Aviation Safety and Noise Abatement Act of 1979.
49 USC 2101 note.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Aviation Safety and Noise Abatement Act of 1979".

TITLE I

Definitions.
49 USC 2101.

SEC. 101. For purposes of this title—

(1) the term "airport" means any air carrier airport whose projects for airport development are eligible for terminal development costs under section 20(b) of the Airport and Airway Development Act of 1970 (49 U.S.C. 1720(b));

(2) the term "airport operator" means any person holding a valid certificate issued pursuant to section 612 of the Federal Aviation Act of 1958 (49 U.S.C. 1432) to operate an airport; and

(3) the term "Secretary" means the Secretary of Transportation.

Regulations.
49 USC 2102.

SEC. 102. Not later than the last day of the twelfth month which begins after the date of enactment of this Act, the Secretary, after consultation with the Administrator of the Environmental Protection Agency and such other Federal, State, and interstate agencies as he deems appropriate, shall by regulation—

(1) establish a single system of measuring noise, for which there is a highly reliable relationship between projected noise exposure and surveyed reactions of people to noise, to be uniformly applied in measuring the noise at airports and the areas surrounding such airports;

(2) establish a single system for determining the exposure of individuals to noise which results from the operations of an airport and which includes, but is not limited to, noise intensity, duration, frequency, and time of occurrence; and

(3) identify land uses which are normally compatible with various exposures of individuals to noise.

Noise exposure map.
49 USC 2103.

SEC. 103. (a)(1) After the effective date of the regulations promulgated in accordance with section 102 of this title, any airport operator of an airport may submit to the Secretary a noise exposure map, prepared in consultation with any public agencies and planning agencies in the area surrounding such airport, which sets forth, in accordance with the regulations promulgated pursuant to section 102, the noncompatible uses in each area of the map, as of the date of submission of such map, a description of the projected aircraft operations at such airport during 1985, and the ways, if any, in which such operations will affect such map.

Revision.

94 STAT. 51

(2) If, **after** the submission to the Secretary of a noise exposure map under paragraph (1), any change in the operation of an airport would create any substantial new noncompatible use in any area surrounding such airport, the operator of such airport shall submit a revised noise exposure map showing such new noncompatible use.

(b)(1) Section 11 of the Airport and Airway Development Act of 1970 (49 U.S.C. 1711) is amended by renumbering paragraphs (6) through (21), and all references thereto, as paragraphs (7) through (22), respectively, and by adding immediately after paragraph (5) the following new paragraph:

"Airport noise compatibility planning."

"(6) 'Airport noise compatibility planning' means the development for planning purposes of information necessary to prepare and submit (A) the noise exposure map and related information pursuant to section 103 of the Aviation Safety and Noise Abatement Act of 1979, including any cost associated with obtaining such information, or (B) a noise compatibility program for submission pursuant to section 104 of such Act.".

Infra.

Planning grants.

(2)(A) Section 13(a) of the Airport and Airway Development Act of 1970 (49 U.S.C. 1713) is amended by—

(i) inserting "(1)" immediately before the first sentence thereof; and

(ii) adding at the end thereof the following new paragraph:

"(2) In order to promote the development of an effective noise compatibility program, for fiscal years beginning after September 30, 1979, the Secretary may make grants of funds for airport noise compatibility planning to sponsors of those air carrier airports whose projects for airport development are eligible for terminal development costs under section 20(b) of this title.".

49 USC 1720.

49 USC 1713.

(B) Section 13(b) of such Act is amended to read as follows:

"(b) AMOUNT AND LIMITATION OF GRANTS.—(1) The award of grants under subsection (a)(1) of this section is subject to the following limitations:

"(A) The total funds obligated for grants under subsection (a)(1) of this section may not exceed $150,000,000, and the amount obligated in any one fiscal year may not exceed $15,000,000.

"(B) The United States share of any airport master planning grant under this section shall be that per centum for which a project for airport development at that airport would be eligible under section 17 of this Act. In the case of any airport system planning grant under this section, the United States share shall be 75 percent.

49 USC 1717.

"(C) No more than 10 percent of the funds made available under subsection (a)(1) of this section in any fiscal year may be allocated for projects within a single State, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, or Guam. Grants for projects encompassing an area located in two or more States shall be charged to each State in the proportion which the number of square miles the project encompasses in each State bears to the square miles encompassed by the entire project.

"(2)(A) The total funds obligated for grants under subsection (a)(2) of this section may not exceed $15,000,000.

"(B) The United States share of any airport noise compatibility planning grant under this section shall be that percent for which a project for airport development at that airport would be eligible under section 17 of this Act.".

Noise compatibility program, submission by airport operators.
49 USC 2104.

SEC. 104. (a) Any airport operator who has submitted a noise exposure map and the related information pursuant to section 103(a)(1) may, after consultation with the officials of any public agencies and planning agencies in the area surrounding such airport, the Federal officials having local responsibility for such airport, and

94 STAT. 52

any air carriers using such airport, submit a noise compatibility program to the Secretary. Such program shall set forth the measures which such operator has taken or proposes for the reduction of existing noncompatible uses and the prevention of the introduction of additional noncompatible uses within the area covered by the noise exposure map submitted by such operator. Such measures may include, but are not limited to—

(1) the implementation of any preferential runway system;

(2) the implementation of any restriction on the use of such airport by any type or class of aircraft based on the noise characteristics of such aircraft;

(3) the construction of barriers and acoustical shielding, including the soundproofing of public buildings;

(4) the use of flight procedures to control the operation of aircraft to reduce exposure of individuals to noise in the area surrounding the airport; and

(5) acquisition of land and interests therein, including, but not limited to, air rights, easements, and development rights, so as to assure the use of property for purposes which are compatible with airport operations.

Criteria for approval or disapproval of program.

(b) The Secretary shall approve or disapprove any program submitted to him pursuant to subsection (a) (other than as such program relates to flight procedures referred to in subsection (a)(4) of this section) within one hundred and eighty days after it is received by him. The Secretary shall approve such program (other than as such program relates to flight procedures referred to in subsection (a)(4) of this section) (A) if the measures to be undertaken in carrying out such program (i) do not create an undue burden on interstate or foreign commerce, and (ii) are reasonably consistent with obtaining the goal of reducing existing noncompatible uses and preventing the introduction of additional noncompatible uses, and (B) if the program provides for its revision made necessary by any revised noise exposure map submitted under section 103(a)(2) of this title. Failure of the Secretary to approve or disapprove such program (other than as such program relates to flight procedures referred to in subsection (a)(4) of this section) within such time period shall be deemed to be an approval of such program. With respect to any part of such program which relates to such flight procedures, the Secretary shall provide such part of such program to the Administrator of the Federal Aviation Administration who shall either approve or disapprove such part of such program.

Flight procedures, submission to FAA.

Incurring of obligations for grants.

Grants, availability.

(c)(1) The Secretary is authorized to incur obligations to make grants under this Act from funds made available under subsection (e) of this section for any project to carry out a noise compatibility program or parts thereof not disapproved under subsection (b) of this section. Grants under this Act may be made to operators of airports submitting noise compatibility programs and to units of local government in the area surrounding such airports if the Secretary determines such units have the capability to carry out projects for which grant applications are made in accordance with such noise compatibility programs. Such airport operator may in turn agree to make the grant available to public agencies in the area surrounding such airports if the Secretary determines such agencies have the capability to carry out projects for which grant applications are made in accordance with such noise compatibility programs. The Federal share of any project for which a grant is made under this subsection shall be 80 percent of the cost of the project. All of the provisions of the Airport and Airway Development Act of 1970 applicable to grants

made under that Act (except section 17 of those provisions relating to apportionment) shall be applicable to any grant made under this Act, unless the Secretary determines that any provision of such Act of 1970 is inconsistent with, or unnecessary to carry out, the purposes of this Act.

(2) The Secretary, further, is authorized under this section to make grants to operators of airports and to units of local government referred to in paragraph (1) for any project to carry out a noise compatibility program developed prior to the enactment of this Act or the promulgation of its implementing regulations if the Secretary determines that such prior program is substantially consistent with the purposes of reducing existing uses and preventing the introduction of additional noncompatible uses and that the purposes of this Act would be furthered by prompt implementation of such program.

U.S. liability for damages.

(d) The United States shall not be liable for damages resulting from aviation noise by reason of any action taken by the Secretary or the Administrator of the Federal Aviation Administration under this section.

49 USC 1714.

(e) The Secretary shall obligate from funds available for expenditure under section 14(a)(3) of the Airport and Airway Development Act of 1970, not less than $25,000,000, for the fiscal year ending September 30, 1980, for making grants under subsection (c) of this section.

Noise exposure map and noise exposure program, preparation and publication.
49 USC 2105.

SEC. 105. The Secretary, acting through the Administrator of the Federal Aviation Administration, after consultation with the officials of any public agencies or planning agencies in the area surrounding such airport, shall prepare and publish a noise exposure map and a noise compatibility program for the airport established by the Act of June 29, 1940 (54 Stat. 686), and the airport the construction of which was authorized by the Act of September 7, 1950 (64 Stat. 770). Such map and program shall be prepared and published in accordance with the requirements of this Act no later than 1 year after the effective date of the regulations promulgated in accordance with section 102 of this Act.

Maps and land lists, prohibition for use in recovery of damages.
42 USC 2106.

SEC. 106. No part of any noise exposure map or related information described in section 103(a) submitted to, or prepared by, the Secretary and no part of the list of land uses identified by the Secretary as land uses which are normally compatible with various exposures of individuals to noise shall be admitted as evidence, or used for any other purpose, in any suit or action seeking damages or other relief for the noise that results from the operation of an airport.

Recovery of damage provisions.
42 USC 2107.

SEC. 107. (a) No person who acquires property or an interest therein after the date of enactment of this Act in an area surrounding an airport with respect to which a noise exposure map has been submitted under section 103 of this title shall be entitled to recover damages with respect to the noise attributable to such airport if such person had actual or constructive knowledge of the existence of such noise exposure map unless, in addition to any other elements for recovery of damages, such person can show that—

(1) a significant change in the type or frequency of aircraft operations at the airport; or

(2) a significant change in the airport layout; or

(3) a significant change in the flight patterns; or

(4) a significant increase in nighttime operations;

occurred after the date of the acquisition of such property or interest therein and that the damages for which recovery is sought have resulted from any such change or increase.

94 STAT. 54

Constructive knowledge for recovery of damage.

(b) For purposes of this section, constructive knowledge shall be imputed, at a minimum, to any person who acquires property or an interest therein in an area surrounding an airport after the date of enactment of this Act if—

(1) prior to the date of such acquisition, notice of the existence of a noise exposure map for such area was published at least three times in a newspaper of general circulation in the county in which such property is located; or

(2) a copy of such noise exposure map is furnished to such person at the time of such acquisition.

Public Law 96-254
96th Congress

An Act

May 30, 1980
[S. 2253]

To amend the Railroad Revitalization and Regulatory Reform Act of 1976 to authorize additional appropriations for the Northeast Corridor improvement project and to require the Secretary of Transportation to begin development of energy efficient rail passenger corridors, to provide for the protection of the employees of the Rock Island Railroad, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Railroad Revitalization and Regulatory Reform Act of 1976, amendment.
Rock Island Railroad Transition and Employee Assistance Act.
45 USC 1001 note.

TITLE I—ROCK ISLAND TRANSITION AND EMPLOYEE ASSISTANCE

SHORT TITLE

SEC. 101. This title may be cited as the "Rock Island Railroad Transition and Employee Assistance Act".

CONGRESSIONAL FINDINGS

SEC. 102. Congress hereby finds that— 45 USC 1001.

(1) uninterrupted continuation of services over Rock Island lines is dependent on adequate employee protection provisions covering Rock Island Railroad employees who are not hired by other railroads;

(2) for those Rock Island Railroad employees not hired by other rail carriers, there is no other practicable means of obtaining funds to meet the necessary costs of such employee protection that are assumed by the Rock Island Railroad;

(3) a cessation of necessary operations of the Rock Island Railroad would have serious repercussions on the economies of the States in which such railroad principally operates; and

(4) premature cessation of services over lines which are the subject of pending purchase application would result in harm to the shipping public and could imperil continuation of vital commuter service.

DEFINITIONS

SEC. 103. As used in this title, the term— 45 USC 1002.

(1) "bankruptcy court" means the court having jurisdiction over the reorganization of the Rock Island Railroad;

(2) "Board" means the Railroad Retirement Board;

(3) "Commission" means the Interstate Commerce Commission;

(4) "employee" includes any employee of the Rock Island Railroad as of August 1, 1979, but does not include any individual serving as president, vice-president, secretary, treasurer, comptroller, counsel, member of the board of directors, or any other person performing such functions;

94 STAT. 400

(5) the term "Rock Island Railroad" means the Chicago, Rock Island and Pacific Railroad Company; and

(6) the term "Secretary" means the Secretary of Transportation.

SERVICE CONTINUATION

SEC. 104. (a) Notwithstanding the provisions of section 11125 of title 49, United States Code, or Public Law 96-131, the Commission shall order directed service for a period of not to exceed 90 days over any line of the Rock Island Railroad if the Secretary finds and certifies to the Commission that— 45 USC 1003. 93 Stat. 1023.

(1) a lack of rail service exists which cannot be resolved by a grant of interim operating authority over such line and grains or foods are ready to be shipped to market; or

(2) a lack of rail service exists which cannot be resolved by a grant of interim operating authority over such line and a rail carrier, shipper, State, or other interested party has expressed in writing to the Secretary an interest in purchasing, leasing, or rehabilitating the particular rail line or facility for purposes of providing rail services, and there is a reasonable expectation that such transaction will be consummated.

Directed service.

(b)(1) Not more than $15,000,000 of the funds availab[illegible] expenditure by the Secretary out of the Railroad Rehabilitatio[illegible] Improvement Fund established under title V of the Railroa[illegible]evitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821 [illegible] seq.) may be made available by the Secretary to the Commission for purposes of providing directed service under this section and section 18(b) of the Milwaukee Railroad Restructuring Act. 93 Stat. 746. *Post*, p. 405.

(2) Funds may be made available for directed service under this section without regard to the findings of the Secretary required under title V of the Railroad Revitalization and Regulatory Reform Act of 1976, and section 516 of such Act (45 U.S.C. 836) shall not apply to any directed service provided with such funds. 45 USC 821.

Trackage rights, compensation terms.

(c) The terms of compensation for all trackage rights, joint facilities, and similar arrangements between other rail carriers and the trustee of the Rock Island Railroad which are in effect on or after March 15, 1980, on portions of the lines of the Rock Island Railroad involved in temporary emergency operations shall be continued in effect during the duration of the temporary emergency operating authority with the carrier providing temporary emergency service substituting for the trustee, except where the Rock Island Railroad has been given more favorable treatment by virtue of its bankruptcy. Such continuation shall not alter or affect the ultimate rights of other rail carriers under trackage rights, joint facilities, or similar arrangements nor prejudice the ultimate determination of any controversy or proceeding concerning rights of the parties with regard to assignment by the trustee of rights in or to the facilities or under the arrangements.

RAILROAD HIRING

45 USC 1004.

SEC. 105. (a) Each person who is an employee of the Rock Island Railroad on August 1, 1979, and who, prior to January 1, 1981, is separated or furloughed (other than for cause) from his employment with such railroad, or from his employment with another rail carrier providing temporary service over lines of the Rock Island Railroad, as a result of a reduction of service by such railroad or such temporary service carrier shall, unless found to be less qualified than other applicants, have the first right of hire by any other rail carrier that is subject to regulation by the Commission for any vacancy that is not covered by (1) an affirmative action plan, or a hiring plan designed to eliminate discrimination, that is required by Federal or State statute, regulations, or Executive order, or by the order of a Federal or State court or agency, or (2) a permissible voluntary affirmative action plan. For purposes of this section, a rail carrier shall not be considered to be hiring new employees when it recalls any of its own furloughed employees.

94 STAT. 401

(b) The rights afforded to Rock Island Railroad employees by this section shall be coequal to the rights afforded to Chicago, Milwaukee, Saint Paul and Pacific Railroad Company employees by section 8 of the Milwaukee Railroad Restructuring Act (45 U.S.C. 907).

93 Stat. 740.

EMPLOYEE PROTECTION AGREEMENTS

45 USC 1005.

SEC. 106. (a) No later than 10 days after the date of enactment of this Act, in order to avoid disruption of rail service and undue displacement of employees, the Rock Island Railroad and labor organizations representing the employees of such railroad, with the assistance of the National Mediation Board, may enter into an agreement providing protection for employees of such railroad who are adversely affected as a result of a reduction in service by such railroad. Such employee protection may include, but need not be limited to, employee relocation incentive compensation, moving expenses, and separation allowances.

(b) If the Rock Island Railroad and the labor organizations representing the employees of such railroad are unable to enter into an employee protection agreement under subsection (a) of this section within 10 days after the date of enactment of this Act, the parties shall immediately submit the matter to the Commission. The Commission shall impose upon the parties by appropriate order a fair and equitable arrangement with respect to employee protection no later than 30 days after the date of enactment of this Act, unless the Rock Island Railroad and the authorized representatives of its employees have by then entered into a labor protection agreement. For purposes of this subsection, the term "fair and equitable" means no less protective of the interests of employees than protection afforded under section 9 of the Milwaukee Railroad Restructuring Act (45 U.S.C. 908), subject to the limitations set forth in section 110 of this title.

"Fair and equitable."

93 Stat. 741.

(c) If an employee protection arrangement is imposed by the Commission under subsection (b) of this section, the bankruptcy court shall immediately authorize and direct the Rock Island Railroad trustee to, and the Rock Island Railroad trustee and the labor organizations representing the employees of the railroad shall, immediately implement such arrangement.

Commission or court orders, stays.

(d)(1) An order of the Commission under subsection (b) of this section may not be stayed by the Commission or by any court, and an order of the bankruptcy court under subsection (c) of this section may not be stayed by any other court.

Appeal.

(2) Any order described in paragraph (1) of this subsection may be appealed only to the court of appeals of the United States having jurisdiction to review decisions and orders of the bankruptcy court. Any such appeal to such court of appeals shall be filed within 5 days after the date of entry of the order of the Commission or the bankruptcy court, as the case may be, and such court of appeals shall finally determine such appeal within 60 days after the date such appeal is filed. No determination by the court of appeals under this subsection may be reviewed in any other court.

Benefit and allowance claims.

(e)(1) Any claim of an employee for benefits and allowances under an employee protection agreement or arrangement entered into under this section shall be filed with the Board in such time and manner as the Board by regulation shall prescribe. The Board shall determine the amount for which such employee is eligible under such agreement or arrangement and shall certify such amount to the Rock Island Railroad for payment.

(2) Benefits and allowances under such agreement or arrangement entered into under this section shall be paid by the Rock Island Railroad from its own assets or in accordance with section 110 of this title, and claims of employees for such benefits and allowances shall be treated as administrative expenses of the estate of the Rock Island Railroad.

(f) The first sentence of section 7(b)(7) of the Railroad Retirement Act of 1974 (45 U.S.C. 231f(b)(7)) is amended by striking out "and the Milwaukee Railroad Restructuring Act" and inserting in lieu thereof ", the Milwaukee Railroad Restructuring Act, and the Rock Island Railroad Transition and Employee Assistance Act".

93 Stat. 742.

"(d) In issuing any order under this section, the Secretary shall describe the conditions or practices which create an emergency situation (as determined by the Secretary), and shall establish standards and procedures under which relief from such order may be obtained. Nothing in this subsection shall be construed to affect the discretion of the Secretary under this section to maintain an order in effect until the emergency situation has been abated.

"(e) Any employee of a common carrier by railroad engaged in interstate or foreign commerce who may be exposed to imminent physical injury in the course of his employment because of the Secretary's failure, without any reasonable basis, to seek relief under subsection (a) of this section, or the authorized representative of such an employee, shall have the right to bring an action against the Secretary in the United States district court for the judicial district in which the emergency situation is alleged to exist or in which the employer has its principal executive office, or for the District of Columbia, to compel the Secretary to issue an order under this section. FINDINGS

SEC. 2. The Congress hereby finds that—

49 USC 10101a note.

(1) historically, railroads were the essential factor in the national transportation system;

(2) the enactment of the Interstate Commerce Act was essential to prevent an abuse of monopoly power by railroads and to establish and maintain a national railroad network;

(3) today, most transportation within the United States is competitive;

(4) many of the Government regulations affecting railroads have become unnecessary and inefficient;

(5) nearly two-thirds of the Nation's intercity freight is transported by modes of transportation other than railroads;

(6) earnings by the railroad industry are the lowest of any transportation mode and are insufficient to generate funds for necessary capital improvements;

(7) by 1985, there will be a capital shortfall within the railroad industry of between $16,000,000,000 and $20,000,000,000;

(8) failure to achieve increased earnings within the railroad industry will result in either further deterioration of the rail system or the necessity for additional Federal subsidy; and

(9) modernization of economic regulation for the railroad industry with a greater reliance on the marketplace is essential

94 STAT. 1897

in order to achieve maximum utilization of railroads to save energy and combat inflation.

GOALS

49 USC 10101a note. SEC. 3. The purpose of this Act is to provide for the restoration, maintenance, and improvement of the physical facilities and financial stability of the rail system of the United States. In order to achieve this purpose, it is hereby declared that the goals of this Act are—

(1) to assist the railroads of the Nation in rehabilitating the rail system in order to meet the demands of interstate commerce and the national defense;

(2) to reform Federal regulatory policy so as to preserve a safe, adequate, economical, efficient, and financially stable rail system;

(3) to assist the rail system to remain viable in the private sector of the economy;

(4) to provide a regulatory process that balances the needs of carriers, shippers, and the public; and

(5) to assist in the rehabilitation and financing of the rail system.

TITLE I—RAIL TRANSPORTATION POLICY

RAIL TRANSPORTATION POLICY

SEC. 101. (a) Chapter 101 of title 49, United States Code, is amended by inserting after section 10101 the following new section:

49 USC 10101a. **"§ 10101a. Rail transportation policy**

"In regulating the railroad industry, it is the policy of the United States Government—

"(1) to allow, to the maximum extent possible, competition and the demand for services to establish reasonable rates for transportation by rail;

"(2) to minimize the need for Federal regulatory control over the rail transportation system and to require fair and expeditious regulatory decisions when regulation is required;

"(3) to promote a safe and efficient rail transportation system by allowing rail carriers to earn adequate revenues, as determined by the Interstate Commerce Commission;

"(4) to ensure the development and continuation of a sound rail transportation system with effective competition among rail carriers and with other modes, to meet the needs of the public and the national defense;

"(5) to foster sound economic conditions in transportation and to ensure effective competition and coordination between rail carriers and other modes;

"(6) to maintain reasonable rates where there is an absence of effective competition and where rail rates provide revenues which exceed the amount necessary to maintain the rail system and to attract capital;

"(7) to reduce regulatory barriers to entry into and exit from the industry;

"(8) to operate transportation facilities and equipment without detriment to the public health and safety;

94 STAT. 1898

"(9) to cooperate with the States on transportation matters to assure that intrastate regulatory jurisdiction is exercised in accordance with the standards established in this subtitle;

"(10) to encourage honest and efficient management of railroads and, in particular, the elimination of noncompensatory rates for rail transportation;

"(11) to require rail carriers, to the maximum extent practicable, to rely on individual rate increases, and to limit the use of increases of general applicability;

"(12) to encourage fair wages and safe and suitable working conditions in the railroad industry;

"(13) to prohibit predatory pricing and practices, to avoid undue concentrations of market power and to prohibit unlawful discrimination;

"(14) to ensure the availability of accurate cost information in regulatory proceedings, while minimizing the burden on rail carriers of developing and maintaining the capability of providing such information; and

"(15) to encourage and promote energy conservation.".

(b) Section 10101(a) of title 49, United States Code, is amended by striking out "To ensure" and inserting in lieu thereof "Except where policy has an impact on rail carriers, in which case the principles of section 10101a of this title shall govern, to ensure". *Ante*, p. 1897.

SEC. 201. (a) Subchapter I of chapter 107 of title 49, United States Code, is amended by inserting after section 10701 the following new section:

"§ 10701a. Standards for rates for rail carriers 49 USC 10701a.

"(a) Except as provided in subsection (b) or (c) of this section and unless a rate is prohibited by a provision of this title, a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may establish any rate for transportation or other service provided by the carrier. 49 USC 10501.

"(b)(1) If the Commission determines, under section 10709 of this title, that a rail carrier has market dominance over the transportation to which a particular rate applies, the rate established by such carrier for such transportation must be reasonable. 49 USC 10709.

"(2) In any proceeding to determine the reasonableness of a rate described in paragraph (1) of this subsection—

"(A) the shipper challenging such rate shall have the burden of proving that such rate is not reasonable if—

"(i) such rate (I) is authorized under section 10707a of this title, and (II) results in a revenue-variable cost percentage for the transportation to which the rate applies that is less than the lesser of the percentages described in clauses (i) and (ii) of section 10707a(e)(2)(A) of this title; or *Post*, p. 1901.

94 STAT. 1899

"(ii) such rate does not meet the description set forth in clause (i) of this subparagraph, but the Commission does not begin an investigation proceeding under section 10707 of this title to determine whether such rate is reasonable; and 49 USC 10707.

"(B) the rail carrier establishing the challenged rate shall have the burden of proving that such rate is reasonable if—

"(i) such rate (I) is greater than that authorized under section 10707a of this title, or (II) results in a revenue- *Post*, p. 1901.

variable cost percentage for the transportation to which the rate applies that is equal to or greater than the lesser of the percentages described in clauses (i) and (ii) of section 10707a(e)(2)(A) of this title; and

"(ii) the Commission begins an investigation proceeding under section 10707 of this title to determine whether such rate is reasonable.

"(3) In determining whether a rate established by a rail carrier is reasonable for purposes of this section, the Commission shall recognize the policy of this title that rail carriers shall earn adequate revenues, as established by the Commission under section 10704(a)(2) of this title.

Post, p. 1906.

"(c)(1) A rate for transportation or other service provided by a rail carrier subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title may not be established below a reasonable minimum. Any rate for transportation by such a rail carrier that does not contribute to the going concern value of such carrier is presumed to be not reasonable. A rate that contributes to the going concern value of such carrier is conclusively presumed not to be below a reasonable minimum.

49 USC 10501.

"(2) A rate for transportation by a rail carrier that equals or exceeds the variable cost of providing the transportation is conclusively presumed to contribute to the going concern value of such rail carrier.

"(3)(A) Upon the filing of a complaint alleging that a rate is in violation of this subsection, the Commission shall take final action thereon by the 90th day after the date such complaint is filed.

"(B) If the Commission determines, based on the record after opportunity for a hearing, that a rate is in violation of this subsection, the Commission shall order such rate to be raised, but only to the minimum level required by this subsection. The complainant shall have the burden of proving that such rate is in violation of this subsection.

"(4)(A) For purposes of this subsection, variable costs shall be determined under formulas or procedures prescribed or certified by the Commission.

"(B) In the determination of variable costs for purposes of minimum rate regulation, the Commission shall, on application of the rail carrier proposing the rate, determine only the costs of such carrier and only those costs of the specific service in question unless the specific information is not available. The Commission may not include in such variable costs an expense that does not vary directly with the level of transportation provided under the proposed rate.".

(b)(1) Section 10701(a) of title 49, United States Code, is amended—

(A) by inserting "(other than a rail rate)" immediately after "A rate" in the first sentence;

(B) by inserting "(including a rail carrier)" immediately after "such a carrier" in the second sentence thereof; and

(C) by inserting "(including rail carriers)" immediately after "those carriers" in the third sentence thereof.

Repeal.

(2) Section 10701(b) of title 49, United States Code, is repealed.

(3) The section analysis of chapter 107 of title 49, United States Code, is amended by inserting immediately below the item relating to section 10701 the following new item:

"10701a. Standards for rates for rail carriers.".

DETERMINATION OF MARKET DOMINANCE

SEC. 202. Section 10709 of title 49, United States Code, is amended by adding at the end thereof the following new subsection:

Definitions.

"(d)(1) In this subsection—

"(A) 'fixed and variable cost' means all cost incurred by rail carriers in the transportation of freight, but limiting the return on equity capital to a rate equal to the embedded cost of debt.

"(B)(i) 'cost recovery percentage' means the lowest revenue-variable cost percentage which, if all movements that produced revenues resulting in revenue-variable cost percentages in excess of the cost recovery percentage are deemed to have produced only revenues resulting in the cost recovery percentage, would produce revenues which would be equal, when combined with total revenues produced by all other traffic transported by rail carrier, to the total fixed and variable cost of the transportation of all traffic by rail carrier.

"(ii) for purposes of determining the cost recovery percentage only, 'revenue-variable cost percentage' means the quotient, expressed as a percentage figure, obtained by dividing the total revenues produced by the transportation of all traffic received by rail carriers for rail transportation by the total variable cost of such transportation.

"(2) In making a determination under this section, the Commission shall find that the rail carrier establishing the challenged rate does not have market dominance over the transportation to which the rate applies if such rail carrier proves that the rate charged results in a revenue-variable cost percentage for such transportation that is less than—

"(A) 160 percent during the period beginning on the effective date of the Staggers Rail Act of 1980 and ending September 30, 1981;

Ante, p. 1895.

"(B) 165 percent during the period beginning October 1, 1981, and ending September 30, 1982;

"(C) 170 percent during the period beginning October 1, 1982, and ending September 30, 1983;

"(D) 175 percent or the cost recovery percentage, whichever is less, during the period beginning October 1, 1983, and ending September 30, 1984; and

"(E) the cost recovery percentage, during each 12-month period beginning on or after October 1, 1984.

Cost recovery percentage.

For purposes of subparagraphs (D) and (E) of this paragraph, the cost recovery percentage shall in no event be less than a revenue-variable cost percentage of 170 percent or more than a revenue-variable cost percentage of 180 percent.

Revenue-variable cost percentage. *Ante*, p. 1916.

"(3) For purposes of determining the revenue-variable cost percentage for a particular transportation, variable costs shall be determined pursuant to section 10705a(m)(1) of this title, with adjustments specified by the Commission. A rail carrier may meet its burden of proof under this subsection by establishing its variable costs in accordance with such section 10705a(m)(1), but a shipper may rebut that showing by evidence of such type, and in accordance with such burden of proof, as the Commission shall prescribe.

94 STAT. 1901

"(4) A finding by the Commission that a rate charged by a rail carrier results in a revenue-variable cost percentage for the transportation to which the rate applies that is equal to or greater than the applicable percentage under paragraph (2) of this subsection does not establish a presumption that (A) such rail carrier has or does not have market dominance over such transportation, or (B) the proposed rate exceeds or does not exceed a reasonable maximum.

Cost recovery percentages. *Ante*, p. 1895.

"(5)(A) Within 180 days after the effective date of the Staggers Rail Act of 1980 and on an annual basis thereafter, the Commission shall determine the cost recovery percentage for the transportation of all traffic received by rail carriers. The Commission shall make such determination after considering each individual revenue-variable cost percentage resulting from the revenues and costs of a valid and reliable statistical sample of all movements of commodities transported by class I rail carriers during the most recent calendar year for which such information is available.

"(B) If, on the basis of calculations under subparagraph (A) of this paragraph, the Commission determines that revenues earned by all class I rail carriers during the previous calendar year do not exceed the fixed and variable costs of such carriers, then the cost recovery percentage for purposes of this section shall be deemed to be equal to the cost recovery percentage last determined by the Commission.

49 USC 10311.

"(C) The Commission shall, in its annual report submitted to the Congress under section 10311 of this title, set forth the cost recovery percentage determined for that year under subparagraph (A) of this paragraph.".

ZONE OF RATE FLEXIBILITY

SEC. 203. (a) Subchapter I of chapter 107 of title 49, United States Code, is amended by inserting after section 10707 the following new section:

49 USC 10707a.

"§ 10707a. Zone of rail carrier rate flexibility

"(a) In this section—

"Base rate."

"(1)(A) 'base rate' means, with respect to the transportation of a particular commodity (i) for the 24-month period beginning on October 1, 1980, the rate in effect on October 1, 1980, (ii) for the 24-month period beginning on October 1, 1982, the rate in effect on October 1, 1982, and (iii) for the 5-year period beginning on October 1, 1984, and for each subsequent 5-year period, the rate in effect on the first day of the applicable 5-year period.

"(B) If no rate exists for the transportation of a particular commodity on October 1, 1980, the base rate for the transportation of such commodity shall be the rate established by the rail carrier (divided by the latest rail cost adjustment factor published by the Commission), unless such rate is found to be unreasonable by the Commission, in which case the base rate shall be the rate authorized by the Commission (divided by the latest rail cost adjustment factor published by the Commission).

"Adjusted base rate."

"(2)(A) 'adjusted base rate' means the base rate for the transportation of a particular commodity multiplied by the latest rail cost adjustment factor published by the Commission pursuant to this paragraph.

Rail cost adjustment factor.

94 STAT. 1902

"(B) Commencing with the fourth quarter of 1980, the Commission shall, as often as practicable but in no event less often than quarterly, publish a rail cost adjustment factor which shall be a fraction, the numerator of which is the latest published Index of Railroad Costs (which index shall be compiled or verified by the Commission, with appropriate adjustments to reflect the changing composition of railroad costs, including the quality and mix of material and labor), and the denominator of which is the same index for the fourth quarter of 1980, or for the fourth quarter of 1982 or for the fourth quarter of every fifth year thereafter, as appropriate.

Rate increase.

49 USC 10501.
49 USC 10709.

"(b)(1) Except as provided in paragraph (2) of this subsection, a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may increase any rate over which the Commission has jurisdiction under section 10709 of this title so long as the increased rate is not greater than the adjusted base rate for the transportation involved, plus any rate increases implemented under subsection (c) or (d) of this section.

"(2) A rate increase authorized under this subsection may not be found to exceed a reasonable maximum for the transportation involved.

49 USC 10706.
49 USC 10712.

"(3) A rail carrier may not increase a rate under this subsection to the extent that the cost increases to such carrier due to inflation are recovered through (A) general rate increases pursuant to section 10706 of this title, or (B) inflation-based rate increases under section 10712 of this title applicable to that rate.

Ante, p. 1895.

"(c)(1) During the 12-month period beginning on the effective date of the Staggers Rail Act of 1980 and during each of the 3 succeeding 12-month periods, a rail carrier may, in addition to rate increases authorized under subsection (b) of this section, increase any rate over which the Commission has jurisdiction under section 10709 of this title by an annual amount of not more than 6 percent of the adjusted base rate, except that in no event shall the total increase under this subsection result in a rate which is more than 118 percent of the adjusted base rate.

"(2)(A) If any portion of a rate increase under this subsection is not implemented in the year in which it is authorized, such portion may, except as provided in subparagraph (B) of this paragraph, be implemented only in the next succeeding year.

"(B) If any portion of the total rate increase authorized under this subsection is not implemented by the end of the 4-year period beginning on the effective date of the Staggers Rail Act of 1980, such portion may be implemented in the next 2 succeeding years, except that in no event may a rail carrier increase a rate under this subsection or under subsection (d) of this section in either of such 2 succeeding years by an annual amount of more than 10 percent of the adjusted base rate.

"(d)(1) Except as provided in paragraph (3) of this subsection, during the 12-month period beginning on October 1, 1984, and during each succeeding 12-month period, a rail carrier may, in addition to rate increases under subsection (b) of this section, increase any rate over which the Commission has jurisdiction under section 10709 of this title by an annual amount of not more than 4 percent of the adjusted base rate.

"(2) No portion of any rate increase under this subsection which is not implemented in the year in which it is authorized may be implemented in any other year.

"(3)(A) The provisions of this subsection shall not apply to a rail carrier proposing to increase a single line rate if such carrier earns adequate revenues, as determined by the Commission under section 10704(a)(2) of this title.

Post, p. 1906.

Joint rates, rules.

"(B) The Commission shall, after a hearing on the record, prescribe such rules with respect to joint rates as necessary to ensure that rail carriers which earn adequate revenues, as determined under section 10704(a)(2) of this title, do not receive the rate increases authorized by this subsection unless the Commission determines that it is unable to prescribe such rules without precluding rail carriers not earning adequate revenues from receiving the rate increases authorized under this subsection.

49 USC 10707.

"(e)(1) Notwithstanding the provisions of section 10707 of this title, in the case of any rate increase by a rail carrier that is authorized under subsection (c) or (d) of this section—

"(A)(i) the Commission may not suspend such rate increase pending final Commission action; and

"(ii) except as provided in paragraph (2) of this subsection, the Commission may not begin an investigation proceeding under section 10707 of this title with respect to the reasonableness of such rate increase; but

49 USC 11701.

"(B) an interested party may file a complaint under section 11701(b) of this title alleging that such rate increase violates the provisions of this subtitle.

In considering any complaint challenging a rate increase that is authorized under subsection (c) of this section and that results in a revenue-variable cost percentage that is less than the lesser of the percentages described in clauses (i) and (ii) of paragraph (2)(A), the Commission shall, in determining the reasonableness of such rate increase, give due consideration to whether the carrier proposing the rate increase has attained adequate revenues, as determined by the Commission under section 10704(a)(2) of this title, giving regard to preventing a carrier with adequate revenues from realizing excessive profits on the traffic involved and also the policy of bringing to an adequate level the revenues of carriers not having an adequate revenue level.

"(2)(A) If a rate increase authorized under this section in any year results in a revenue-variable cost percentage for the transportation to which the rate applies that is equal to or greater than—

"(i) 20 percentage points above the revenue-variable cost percentage applicable in that year under section 10709(d) of this title; or

Ante, p. 1900.

"(ii) a revenue-variable cost percentage of 190 percent,

whichever is less, the Commission may, on its own initiative, or on complaint of an interested party, begin an investigation proceeding to determine whether the proposed rate increase violates this subtitle.

"(B) In determining whether to investigate or not to investigate any proposed rate increase that results in a revenue-variable cost percentage for the transportation to which the rate applies that is equal to or greater than the lesser of the percentages described in clauses (i) and (ii) of subparagraph (A) of this paragraph (without regard to whether such rate increase is authorized under this section), the Commission shall set forth its reasons therefor, giving due consideration to the following factors:

"(i) the amount of traffic which is transported at revenues which do not contribute to going concern value and efforts made to minimize such traffic;

"(ii) the amount of traffic which contributes only marginally to fixed costs and the extent to which, if any, rates on such traffic can be changed to maximize the revenues from such traffic; and

94 STAT. 1904

Ante, p. 1897.

49 USC 10704.

"(iii) the impact of the proposed rate or rate increase on the attainment of the national energy goals and the rail transportation policy under section 10101a of this title, taking into account the railroads' role as a primary source of energy transportation and the need for a sound rail transportation system in accordance with the revenue adequacy goals of section 10704 of this title.

This subparagraph shall not be construed to change existing law with regard to the nonreviewability of such determination.

"(C) In determining whether a rate is reasonable, the Commission shall consider, among other factors, evidence of the following:

"(i) the amount of traffic which is transported at revenues which do not contribute to going concern value and efforts made to minimize such traffic;

"(ii) the amount of traffic which contributes only marginally to fixed costs and the extent to which, if any, rates on such traffic can be changed to maximize the revenues from such traffic; and

"(iii) the carrier's mix of rail traffic to determine whether one commodity is paying an unreasonable share of the carrier's overall revenues.

"(f) In any proceeding under this section, evidence of the underlying rail carrier rate is admissible.

"(g) A finding by the Commission that a rate increase exceeds the increase authorized under this section does not establish a presumption that (1) the rail carrier proposing such rate increase has or does not have market dominance over the transportation to which the rate applies, or (2) the proposed rate exceeds or does not exceed a reasonable maximum.

"(h) The authority of the Commission to determine and prescribe reasonable rules, classifications, and practices may not be used, directly or indirectly, to limit the rates which rail carriers are otherwise authorized to establish under this subtitle.".

(b) The section analysis of chapter 107 of title 49, United States Code, is amended by inserting immediately after the item relating to section 10707 the following new item:

"10707a. Zone of rail carrier rate flexibility.".

Rail carrier rate increases.
49 USC 10707a note.

(c)(1) Any rail carrier rate which increased over 70 percent between 1976 and 1979 inclusive for the transportation, in shipper owned equipment over a distance exceeding 1,550 miles between points within the United States, of coal pursuant to a tariff calling for an annual volume of more than 2,000,000 tons per year purchased by a municipally owned utility for the generation of electric power under a 20-year purchase agreement entered into by such utility in the year 1974 shall not be increased so long as coal is purchased under such original agreement, except that—

(A) during the period beginning October 1, 1980, and ending September 30, 1987, the Interstate Commerce Commission may permit increases in such rate which result in a revenue-variable cost percentage of not more than 162 percent; and

Ante, p. 1898.

(B) after October 1, 1987, such rate shall be subject to section 10701a of title 49, United States Code, and related provisions of such title governing regulation of rail carrier rates, except that until such rate results in a revenue-variable cost percentage that is equal to or greater than the revenue-variable cost percentage applicable under section 10709(d) of such title, such rate may not be increased more than 4 percent, in addition to inflation, in any year.

Ante, p. 1900.

94 STAT. 1905

(2) Neither the provisions of this subsection nor any rate subject to this subsection shall be admissible as evidence or considered in any way in any proceeding involving any other rail carrier rate that is commenced to determine market dominance under section 10709 of title 49, United States Code, or to determine reasonableness under section 10701a of such title.

Ante, p. 1898.

TRANSPORTATION OF RECYCLABLE MATERIALS

SEC. 204. Section 10731 of title 49, United States Code, is amended by adding at the end thereof the following new subsection:

"(e) Notwithstanding any other provision of this title or any other law, within 90 days after the effective date of the Staggers Rail Act of 1980, all rail carriers providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title shall take all actions necessary to reduce and thereafter maintain rates for the transportation of recyclable or recycled materials, other than recyclable or recycled iron or steel, at revenue-to-variable cost ratio levels that are equal to or less than the average revenue-to-variable cost ratio that rail carriers would be required to realize, under honest, economical, and efficient management, in order to cover total operating expenses, including depreciation and obsolescence, plus a reasonable and economic profit or return (or both) on capital employed in the business sufficient to attract and retain capital in amounts adequate to provide a sound transportation system in the United States. As long as any such rate equals or exceeds such average revenue-to-variable cost ratio established by the Commission, such rate shall not be required to bear any further rate increase. The Commission shall have jurisdiction to issue all orders necessary to enforce the requirements of this subsection.".

49 USC 10501.

RATE REGULATION PROCEEDINGS; ADEQUATE REVENUES

49 USC 10701a note.

SEC. 205. (a)(1) The Interstate Commerce Commission shall commence a proceeding for purposes of determining whether, and to what extent, product competition should be considered in proceedings under subtitle IV of title 49, United States Code, to determine the reasonableness of rail carrier rates. The Commission shall complete its proceeding under this subsection within 230 days after the effective date of this Act.

49 USC 10101.

"Product competition."

(2)(A) For purposes of this subsection, the term "product competition" means the availability to a consignee, at a competitive delivered cost and in sufficient quantities, of products or commodities which are of the same type as the commodity or product to which the rate in question applies, without regard to whether such products or commodities are available from the same or a different origin as those to which the rate applies.

(B) In determining the availability of alternative sources of a particular commodity for purposes of this subsection, such commodity must be capable, by reason of similar specifications, of being effectively utilized by the consignee.

(C) In determining the availability of alternative sources of coal for purposes of this subsection, such coal must be capable, by reason of similar specifications such as Btu's, sulfur content, and ash content of being effectively utilized by the consignee.

(D) For purposes of this subsection, any coal imported in the United States for the generation of electricity by utilities shall not be taken into account in the determination of whether coal is available to a consignee from another source.

94 STAT. 1906

(3)(A) Nothing in this subsection shall be construed as requiring the Commission to modify its standards for the determination of the reasonableness of rail carrier rates under existing law and procedures.

"Market dominance."

(B) Nothing in this subsection shall be construed as altering the meaning, use, or interpretation by the Commission, the courts, or any party of the term "market dominance", as defined in section 10709(a) of title 49, United States Code. The enactment of this subsection shall not be considered by the Commission in any proceeding, or by any court on an appeal from that or any other proceeding, to determine the proper scope of the term "market dominance" or whether there is market dominance over the transportation to which any particular rate applies.

(b)(1) Section 10704(a)(2) of title 49, United States Code, is amended by inserting "and revise as necessary" immediately after "shall maintain".

(2) Section 10704(a) of title 49, United States Code, is amended by adding at the end thereof the following new paragraphs:

"(3) The Commission shall conclude a proceeding under paragraph (2) of this subsection within 180 days after the effective date of the Staggers Rail Act of 1980 and thereafter as necessary.

Ante, p. 1895.

"(4) On the basis of the standards and procedures under paragraph (2) of this subsection, the Commission shall, within 180 days after the effective date of the Staggers Rail Act of 1980 and on an annual basis thereafter, determine which rail carriers are earning adequate revenues.".

INFLATION-BASED RATE INCREASES

SEC. 206. (a) Subchapter I of chapter 107 of title 49, United States Code, is amended by adding at the end thereof the following new section:

49 USC 10712.

"§ 10712. Inflation-based rate increases

Ante, p. 1897.

"(a) The Commission may, on a quarterly basis and consistent with the rail transportation policy set forth in section 10101a of this title, prescribe a percentage rate increase or rate index for rail carriers in order to compensate for inflationary cost increases. Such percentage rate increase or rate index may be applicable on an industry-wide, territory-wide, or carrier-by-carrier basis.

"(b) Within 60 days after the date the Commission prescribes a percentage rate increase or rate index under subsection (a) of this section, each rail carrier or group of rail carriers shall notify the Commission of any rate or group of rates which such carrier or carriers intend to be excluded from the application of such percentage rate increase or rate index.

Total revenue increase, recovery.

"(c) For purposes of this section, a percentage rate index may permit rate increases within a specified range to allow carriers to recover a total revenue increase specified by the Commission as necessary to compensate for inflationary cost increases.".

(b) The section analysis for chapter 107 of title 49, United States Code, is amended by inserting immediately after the item relating to section 10711 the following new item:

"10712. Inflation-based rate increases.".

INVESTIGATION AND SUSPENSION OF RATES

SEC. 207. (a) Section 10707(b)(1) of title 49, United States Code, is amended to read as follows:

"(b)(1) The Commission must complete a proceeding under this section and make its final decision by the end of the 5th month after the rate, classification, rule, or practice was to become effective, except that if the Commission reports to the Congress by the end of such 5th month that it cannot make a final decision by that time and explains the reason for the delay, it may take an additional 3 months to complete the proceeding and make its final decision. If the

Commission does not reach a final decision within the applicable time period, the rate, classification, rule, or practice—

"(A) is effective at the end of that time period; or

"(B) if already in effect at the end of that time period, remains in effect.".

(b) Section 10707(c) of title 49, United States Code, is amended to read as follows:

"(c)(1) The Commission may not suspend a proposed rate, classification, rule, or practice during the course of a Commission proceeding under this section unless it appears from the specific facts shown by the verified statement of a person that—

"(A) it is substantially likely that the protestant will prevail on the merits;

"(B) without suspension, the proposed rate change will cause substantial injury to the protestant or the party represented by the protestant; and

"(C) because of the peculiar economic circumstances of the protestant, the provisions of subsection (d) of this section do not protect the protestant.

"(2) The burden shall be on the protestant to prove the matters described in paragraph (1) (A), (B), and (C) of this subsection.".

(c) Section 10707(d) of title 49, United States Code, is amended to read as follows:

"(d)(1) If the Commission does not suspend a proposed rate increase under subsection (c) of this section, the Commission shall require the rail carrier to account for all amounts received under the increase until the Commission completes its proceedings under subsection (b) of this section. The accounting shall specify by whom and for whom the amounts are paid. When the Commission takes final action, it shall require the carrier to refund to the person for whom the amounts were paid that part of the increased rate found to be unreasonable, plus interest at a rate equal to the average yield (on the date the statement is filed) of marketable securities of the United States Government having a duration of 90 days.

"(2) If a rate is suspended under subsection (c) of this section and any portion of such rate is later found to be reasonable under this title, the carrier shall collect from each person using the transportation to which the rate applies the difference between the original rate and the portion of the suspended rate found to be reasonable for any services performed during the period of suspension, plus interest at a rate equal to the average yield (on the date the statement is filed) of marketable securities of the United States Government having a duration of 90 days, except that this paragraph shall not apply to general rate increases under section 10706 of this title. 49 USC 10706.

"(3) If any portion of a proposed rate decrease is suspended under subsection (c) of this section and later found to be reasonable under this title, the rail carrier may refund any part of the portion of the decrease found to comply with this title if the carrier makes the refund available to each shipper who participated in the rate, in accordance with the relative amount of such shipper's traffic transported at such rate.

94 STAT. 1908

"(4) Notwithstanding the provisions of section 10741 or section 10761 of this title, the Commission shall, by rule, establish standards and procedures permitting a rail carrier to waive the collection of amounts due under this subsection if such amounts are not significant.". 49 USC 10741, 10761.

(d) Section 10707(e) of title 49, United States Code, is repealed. Repeal.

CONTRACTS

SEC. 208. (a) Subchapter I of chapter 107 of title 49, United States Code, as amended by this Act, is further amended by adding at the end thereof the following new section:

"§ 10713. Contracts 49 USC 10713.

"(a) One or more rail carriers providing transportation subject to the jurisdiction of the Interstate Commerce Commission under sub-

49 USC 10501.

chapter I of chapter 105 of this title may enter into a contract with one or more purchasers of rail services to provide specified services under specified rates and conditions. Such a rail carrier may not enter into a contract with purchasers of rail service except as provided in this section.

"(b) Each contract entered into under this section shall be filed with the Commission, together with a summary of the contract containing such nonconfidential information as the Commission prescribes. The Commission shall publish special tariff rules for such contracts in order to assure that the essential terms of the contract are available to the general public in tariff format.

Special tariff rules.

Approval.

"(c) A contract filed under this section shall be approved by the Commission, as provided in subsection (e) of this section, unless the Commission determines in a proceeding under subsection (d) of this section that such contract is in violation of this section.

Review.

"(d)(1) No later than 30 days after the date of filing of a contract under this section, the Commission may, on its own initiative or on complaint, begin a proceeding to review such contract on the grounds described in this subsection.

Complaint filing.

"(2)(A) In the case of a contract other than a contract for the transportation of agricultural commodities (including forest products and paper), a complaint may be filed—

"(i) by a shipper only on the grounds that such shipper individually will be harmed because the proposed contract unduly impairs the ability of the contracting carrier or carriers to meet their common carrier obligations to the complainant under section 11101 of this title; or

49 USC 11101.

"(ii) by a port only on the grounds that such port individually will be harmed because the proposed contract will result in unreasonable discrimination against such port.

Agricultural commodities.

"(B) In the case of a contract for the transportation of agricultural commodities (including forest products and paper), in addition to the grounds for a complaint described in subparagraph (A) of this paragraph, a complaint may be filed by a shipper on the grounds that such shipper individually will be harmed because—

"(i) the rail carrier has unreasonably discriminated by refusing to enter into a contract with such shipper for rates and services for the transportation of the same type of commodity under similar conditions to the contract at issue, and that shipper was ready, willing, and able to enter into such a contract at a time essentially contemporaneous with the period during which the contract at issue was offered; or

94 STAT. 1909

"(ii) the proposed contract constitutes a destructive competitive practice under this subtitle.

In making a determination under clause (ii) of this subparagraph, the Commission shall consider the difference between contract rates and published single car rates.

"Unreasonable discrimination."
49 USC 10741.

"(C) For purposes of this paragraph, the term 'unreasonable discrimination' has the same meaning as such term has under section 10741 of this title.

"(3)(A) Within 30 days after the date a proceeding is commenced under paragraph (1) of this subsection, or within such shorter time period after such date as the Commission may establish, the Commission shall determine whether the contract that is the subject of such proceeding is in violation of this section.

Rates and service.

"(B) If the Commission determines, on the basis of a complaint filed under paragraph (2)(B)(i) of this subsection, that the grounds for a complaint described in such paragraph have been established with respect to a carrier, the Commission shall, subject to the provisions of this section, order such carrier to provide rates and service substantially similar to the contract at issue with such differentials in terms and conditions as are justified by the evidence.

Effective dates.

"(e) Approval of a contract filed under this section shall be effective—

"(1) on the date the Commission expressly approves such contract, but in no event before the end of the 30-day period beginning on the date such contract is filed or after the end of the 60-day period beginning on such date; or

"(2) if the Commission has not disapproved such contract by the end of the 60-day period beginning on the date such contract is filed, at the end of such 60-day period.

Future contracts.

"(f) The Commission may limit the right of a rail carrier to enter into future contracts under this section following a determination that additional contracts would impair the ability of the rail carrier to fulfill its common carrier obligations under section 11101 of this title.

49 USC 11101.

"(g) The Commission may not require a rail carrier to violate the terms of a contract that has been approved under this section, except to the extent necessary to comply with section 11128 of this title.

49 USC 11128.

"(h) A party to a contract entered into under this section shall have no duty in connection with services provided under such contract other than those duties specified by the terms of the contract.

"(i)(1) A contract that is approved by the Commission under this section, and transportation under such contract, shall not be subject to this subtitle, and may not be subsequently challenged before the Commission or in any court on the grounds that such contract violates a provision of this subtitle.

"(2) The exclusive remedy for any alleged breach of a contract entered into under this section shall be an action in an appropriate State court or United States district court, unless the parties otherwise agree.

"(j) The provisions of this section shall not affect the status of any lawful contract between a rail carrier and one or more purchasers of rail service that is in effect on the effective date of the Staggers Rail Act of 1980. Any such contract shall hereafter have the same force and effect as if it had been entered into in accordance with the provisions of this section. Nothing in this section shall affect the rights of the parties to challenge the existence of such a contract.

Agricultural products, transportation.

"(k)(1) Any rail carrier may, in accordance with the terms of this section, enter into contracts for the transportation of agricultural commodities (including forest products and paper) involving the utilization of carrier owned or leased equipment not in excess of 40 percent of the capacity of such carrier's owned or leased equipment by major car type (plain boxcars, covered hopper cars, gondolas and open top hoppers, coal cars, bulkhead flatcars, pulpwood rackcars, and flatbed equipment, including TOFC/COFC), except that in the case of a proposed contract between a class I carrier and a shipper originating an average of 1,000 cars or more per year during the prior 3-year period by major car type on a particular carrier, not more than 40 percent of carrier owned or leased equipment utilized on the average during the prior 3-year period may be used for such contract without prior authorization by the Commission.

"(2) The Commission may, on request of a rail carrier or other party or on its own initiative, grant such relief from the limitations of paragraph (1) of this subsection as the Commission considers appropriate, if it appears that additional equipment may be made available without impairing the rail carrier's ability to meet its common carrier obligations under section 11101 of this title.

49 USC 11101.

"(l) Service under a contract approved under this section shall be deemed to be a separate and distinct class of service, and the equipment used in the fulfillment of such a contract shall not be subject to car service decisions under section 11123 of this title.

49 USC 11123.

Railroad contract rate advisory service.

"(m) The Commission shall establish a railroad contract rate advisory service. The advisory service shall—

"(1) compile and disseminate to interested parties nonconfidential summaries of the provisions of individual contract information relating to the provisions of contracts entered into under this section with regard to various goods, items, and commodities covered by such contracts;

"(2) provide the Commission and interested parties with advice regarding contracts; and

"(3) assess the impact on competition among shippers of variations between contract rates for various shipments and the published single car rates, and submit a report on such impact to the Congress not later than 90 days after the effective date of the Staggers Rail Act of 1980.".

COMPENSATORY JOINT RATE RELIEF

SEC. 217. (a)(1) Chapter 107 of title 49, United States Code, is amended by inserting after section 10705 the following new section:

49 USC 10705a.

"§ 10705a. Joint rate surcharges and cancellations

49 USC 10501.

"(a)(1)(A) Except as provided in subparagraph (B) of this paragraph, a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may publish and apply a surcharge increasing or decreasing the through charge applicable to any movement between points designated by the surcharging carrier subject to a joint rate. Such a surcharge may be applied without the concurrence of the other carriers that are party in such joint rate.

Ante, p. 1906.

"(B) A carrier earning adequate revenues, as determined under section 10704(a)(2) of this title, may not apply such a surcharge to any movement on a line operated by such carrier which carried more than 3,000,000 gross ton miles of traffic per mile in the preceding calendar year.

"(C) Any surcharge applied pursuant to this subsection must be applied in equal dollar amounts to the movement subject to the surcharge over all routes between the points designated by the surcharging carrier which such carrier participates in under the joint rate involved, and when the surcharge increases the through charges, under any of such carrier's single line rates between the same points.

"(2)(A) Whenever a rail carrier applies a surcharge increasing a through charge pursuant to paragraph (1) of this subsection, any other rail carrier that participates in any movement subject to such surcharge may cancel the application of such surcharge to any route participated in by such other carrier, if such carrier makes the demonstration described in subparagraph (B) of this paragraph.

"(B) A rail carrier may cancel the application of a surcharge under this paragraph if such carrier demonstrates to the Commission that the surcharging carrier's share of the revenues, at the time the surcharge was filed with the Commission, from its participation in the movement over the route involved would have been equal to or greater than 110 percent of its variable costs of providing service over such route, under either—

"(i) the applicable joint rate in effect at the time the surcharge was filed with the Commission, without the surcharge;

"(ii) a new rate division increasing the share of the surcharging carrier;

"(iii) a new higher lawful rate published by the canceling carrier; or

"(iv) a new, lesser surcharge which shall be prescribed by the Commission upon and in conformity with the request of the carrier proposing to cancel the surcharge. Any such prescribed surcharge shall, in conjunction with the surcharging carrier's division of the joint rate in effect on the date the original surcharge was filed with the Commission, provide the carrier proposing the original surcharge revenues equal to or greater than 110 percent of such surcharging carrier's variable cost of providing service over such route.

"(C)(i) The canceling tariff shall only become effective if the rail carrier proposing to cancel the application of the surcharge makes the demonstration described in subparagraph (B) of this paragraph.

"(ii) If the demonstration described in clause (i) of this subparagraph is made on the basis of the applicable joint rate in effect at the time the surcharge was filed with the Commission, without the surcharge, the tariff shall become effective on one day's notice after such determination is made.

94 STAT. 1917

"(iii) If the demonstration described in clause (i) of this subparagraph is made on the basis of a new rate, division, or surcharge prescribed pursuant to subparagraph (B)(iv) of this paragraph, the tariff shall become effective on the date such new rate, division, or surcharge becomes effective.

"(D) The remedy available to a rail carrier canceling the application of a surcharge under this paragraph shall be in addition to any other remedy available to such carrier under this chapter.

"(3)(A) The Commission may cancel the application of a surcharge to a route to which such surcharge applies if a shipper moving traffic over such route demonstrates to the Commission that—

"(i) there is no competitive alternative to such route for the movement of the traffic involved that is not subject to such surcharge; and

"(ii) the surcharging carrier's share of the revenues from its participation in the movement over the route to which such surcharge applies, under the applicable joint rate in effect at the time the surcharge was filed with the Commission, with the surcharge, would be greater than 110 percent of its variable cost of providing service over such route.

Surcharge level, determination.

"(B) If the Commission cancels the application of a surcharge to a particular route pursuant to subparagraph (A) of this paragraph, the Commission shall determine the level of surcharge which, in conjunction with the surcharging carrier's division of the joint rate in effect at the time the surcharge was filed with the Commission, would equal 110 percent of the surcharging carrier's variable cost of providing service over such route, and shall authorize such carrier immediately to apply such a surcharge without any further proceedings under this subsection.

"(4) A rail carrier may not apply a surcharge under this subsection unless, for the one-year period preceding the surcharge, such carrier has concurred in all rate increases of general applicability applicable to the joint rate to which such surcharge applies and agreed to by all other carriers that are party to such joint rate.

"(5) A rail carrier may not apply a surcharge under this subsection increasing a through charge applicable to a particular movement more than once each calendar year.

Total charges, reduction.

"(6) Notwithstanding any other provision of this subsection, a rail carrier may, by tariff, reduce the total charges applicable to a movement over any specific joint line or single line route or routes in which such carrier participates, if such reduction does not lower the total charges applicable to such movement to a level that is less than the lowest total charges applicable to the same movement over a competing route. Any such reduction may be made without the concurrence of any other rail carrier, and shall be borne solely by the carrier reducing the charge. Nothing in this paragraph shall be construed to limit the right of a carrier to reduce rates over routes not in direct competition between the same points with routes to which it has applied a surcharge.

"(b)(1) Notwithstanding subsection (a) of this section—

Ante, p. 1906.

94 STAT. 1918

"(A) a rail carrier not earning adequate revenues, as determined under section 10704(a)(2) of this title, may publish and apply a surcharge applicable to traffic originating or terminating upon any of its lines that carried less than 3,000,000 gross ton miles of traffic per mile in the most recent calendar year for which traffic data is available; and

"(B) a rail carrier earning adequate revenues, as so determined, may publish and apply a surcharge applicable to traffic originating or terminating upon any of its lines that carried less than 1,000,000 gross ton miles of traffic per mile in such most recent calendar year.

Such a surcharge may be applied without the concurrence of any rail carrier. Any such surcharge may be allocated, subject to the provisions of paragraph (4) of this subsection, in different amounts among different movements between different origins and destinations, and shall accrue solely to the surcharging carrier.

"(2) A rail carrier may apply a surcharge under this subsection if, prior to the application of such surcharge, that portion of the charges applicable to traffic to and from the line to which the surcharge applies and accruing to the surcharging carrier does not provide such carrier revenues adequate to cover—

"(A) 110 percent of such carrier's variable cost of transporting the traffic involved to or from such line; plus

"(B) 100 percent of such carrier's reasonably expected costs of continuing to operate such line, which shall include all costs necessary to sustain service on the line.

Ante, p. 1895.

The Commission shall, within 120 days after the effective date of the Staggers Rail Act of 1980, complete a proceeding to define the term 'reasonably expected costs' as used in subparagraph (B) of this paragraph. In the interim, the term shall be construed in accordance with Rail Services Planning Office subsidy standards.

Shipper petition.

"(3)(A) Upon petition of a shipper located upon a line to which a surcharge under this subsection is applied, the Commission may cancel the application of a surcharge under this subsection if such shipper demonstrates to the Commission that, after application of the surcharge, the surcharging carrier's revenues from all traffic originating or terminating upon the line to which the surcharge applies exceed 110 percent of such carrier's variable cost of transporting all traffic to or from such line plus such carrier's reasonably expected costs of continuing to operate such line.

"(B)(i) A rail carrier's revenue from all traffic originating or terminating upon a line shall be presumed to exceed 110 percent of its variable cost of transporting all traffic to or from such line plus its reasonably expected costs of continuing to operate such line if the complaining shipper demonstrates that the carrier is earning revenues from all traffic originating or terminating upon such line that result in a revenue-variable cost percentage that is equal to or greater than the revenue-variable cost percentage applicable in that year under section 10709(d) of this title.

Ante, p. 1900.

"(ii) A surcharging carrier may rebut the presumption set forth in clause (i) of this subparagraph by demonstrating to the Commission that its reasonably expected costs for operating the line to which the surcharge applies exceed the percentage of variable cost set forth in such clause (i).

"(C) Upon a finding by the Commission that application of the surcharge will produce revenues in excess of 110 percent of the surcharging carrier's variable cost of transporting traffic to or from the line plus its reasonably expected costs for operating the line, the Commission shall determine the level of surcharge which would produce revenues equal to such figure and shall authorize such carrier immediately to apply such surcharges as will generate such

94 STAT. 1919

revenues without any further proceedings, subject only to the right of a shipper to proceed under paragraph (4) of this subsection.

Shipper complaint.

"(4)(A) A rail carrier may not apply a surcharge under this subsection that results in any shipper being required to bear more than a reasonable proportion of the reasonably expected costs of continuing to operate the line to which such surcharge applies.

"(B) Upon complaint of a shipper, the Commission shall determine whether the shipper is being required to bear more than a reasonable proportion of the costs described in subparagraph (A) of this paragraph.

"(C) If the Commission finds that a complaining shipper is being required to bear more than a reasonable proportion of the costs described in subparagraph (A) of this paragraph, the Commission may reallocate the surcharge among the traffic originating or terminating on the line to which the surcharge applies, but may not order relief which would result in the surcharging carrier earning revenues less than those which the carrier would have earned had the surcharge been applied as filed.

Relief.

"(5) A shipper may, in a single complaint, seek relief under paragraphs (3) and (4) of this subsection. In any such complaint, the Commission shall first determine the right to relief under paragraph (3) and shall grant such relief as is appropriate under such paragraph.

"(6) In any proceeding brought before the Commission challenging the application or amount of a surcharge under this subsection, whether the surcharge is claimed to violate this subsection or some other provision of this chapter, the Commission shall not suspend the application of any such surcharge unless the person filing the verified statement required by section 10707(c) of this title, in addition to the matters required by such section, also makes the demonstration required by paragraph (3)(A) of this subsection. If the demonstration required by such paragraph (3)(A) is made, the Commission may suspend the application of only so much of the surcharge as will produce revenues in excess of the amount so demonstrated.

Ante, p. 1907.

"(c)(1) Notwithstanding any other provision of this title, any prior agreement in effect on the effective date of the Staggers Rail Act of 1980, or any requirement of the Commission, a rail carrier may cancel the application of a joint rate to a through route in which it participates, without the concurrence of any other rail carrier that is a party to such joint rate, unless another rail carrier that participates in such through route or a shipper that has no competitive alternative to such route makes the demonstration described in paragraph (2) of this subsection.

Ante, p. 1895.

"(2) The application of a joint rate to a through route may not be canceled under this subsection if a rail carrier that participates in such through route or a shipper that has no competitive alternative to such route from an origin or destination served by such route demonstrates to the Commission that the canceling carrier's share of the revenues, under the joint rate in effect at the time the application of the joint rate is canceled, is equal to or greater than—

"(A) 110 percent of the canceling carrier's variable cost of providing service over such route; or

"(B) such lesser percent of the canceling carrier's variable cost as such carrier earns over a competing through route to which application of the joint rate has not been canceled, or over a competing single line route.

"(3) When a complaining party is unable to make the demonstration required by paragraph (2) of this subsection, the Commission may suspend the tariff canceling the joint rate only if—

"(A) a complaining carrier publishes a new rate division or a new higher lawful rate which increases the canceling carrier's share of the revenues over such route to the amount calculated under paragraph (2)(A) or (2)(B) of this subsection, whichever is less; or

"(B) a complaining carrier or shipper petitions the Commission and the Commission imposes a surcharge, in conformity with such petition, upon the joint rate which will accrue solely to the canceling carrier and which, in conjunction with the canceling carrier's division of the joint rate in effect on the date the tariff canceling the joint rate was filed, will provide the canceling carrier revenues equal to or greater than 110 percent of its variable cost of providing service over such route.

Unless a new rate, division, or surcharge described in this paragraph becomes effective within 120 days after the proposed effective date of the rate cancellation, the canceling tariff shall, nevertheless, become effective.

"(4) If the demonstration described in paragraph (2) is made or a new rate, division, or surcharge described in paragraph (3) becomes effective, the tariff canceling the joint rate shall be considered by the Commission in accordance with section 10705 of this title. The existing joint rate or the new rate, division, or surcharge, shall remain in effect during the pendency of the Commission's consideration.

49 USC 10705.

"(5) Whenever the application of a joint rate to a through route is canceled under this subsection and a rate other than a joint rate is or has been published by the canceling carrier to apply to such route, such rate shall thereafter apply in lieu of all other rates (except joint rates subsequently agreed to by such carrier) and any through rate of which such rate is a factor shall divide as the separate factors of such rate are made.

"(6) Nothing in this subsection shall be construed to limit the authority of the Commission under section 10705(a) of this title to prescribe joint rates which provide a rail carrier participating in such joint rate revenues equal to or greater than 110 percent of its variable cost of providing service over each route to which such rate applies.

Increased or decreased revenues.

"(d)(1) Except as provided in paragraph (2) of this subsection, any increase or decrease in revenue resulting from the application of a surcharge under subsection (a) of this section, or from the cancellation of the application of a joint rate under subsection (c) of this section, shall accrue solely to or be borne solely by the carrier applying the surcharge or canceling the application of the joint rate, as the case may be.

"(2) Whenever a class III rail carrier which participates in a through route to which a surcharge has been applied under subsection (a) of this section by a carrier operating in the same rate territory as such class III carrier demonstrates to the Commission that the application of such surcharge to such route provides, in the absence of any increase in the joint rate in effect on the date the surcharge was filed with the Commission, revenues from traffic moving over such route to such surcharging carrier in excess of 110 percent of its variable costs over such route, such surcharging carrier shall, from the date of such demonstration, share those revenues from such route, from the surcharge and the applicable joint rate in effect on the date the surcharge was filed with the Commission, in excess of

110 percent of its variable costs with all class III rail carriers in the same rate territory participating in such route, on the basis of their existing divisions of the joint rate to which the surcharge applies.

"(e)(1) Except as provided in paragraph (2) of this subsection, whenever a rail carrier proposes to apply a surcharge under subsection (a) of this section or to cancel the application of a joint rate under subsection (c) of this section and another rail carrier subsequently agrees to a new rate division or a new lawful rate that increases the surcharging or canceling carrier's share of the total through charges for a movement over a particular through route subject to a joint rate, such other rail carrier shall also agree to any other new rate division and new lawful rate—

"(A) that is proposed within 120 days after the date of the first agreement; and

"(B) that increases the surcharging or canceling carrier's share of the total through charges for movements over a competing through route subject to such joint rate.

"(2) A rail carrier shall not be required to agree under this subsection to any proposed new division or new rate which would—

"(A) reduce such carrier's share of the total through charges for a movement over any through route to less than (i) 110 percent of its variable costs of providing service over such route, or (ii) such lesser percent of its variable costs as such carrier earns from such movement over a competing through route with respect to which such carrier has agreed to a new division or rate;

"(B) increase the surcharging or canceling carrier's share of the total through charges for a movement over any through route to an amount in excess of 110 percent of its variable costs of providing service over such route;

"(C) reduce such carrier's share of the total through charges for a movement over any through route by a dollar amount in excess of the greatest dollar reduction which such carrier has agreed to make, for purposes of increasing the surcharging or canceling carrier's share, to its share of the total through charges for a movement over any competing through route; or

"(D) reduce such carrier's share of the total through charges for a movement over any through route in an amount in excess of such carrier's pro rata share (based on established divisions for movements over such route) of the increase of the surcharging or canceling carrier's share of the total through charges for movements over such route.

Tariff filing.

"(f) A rail carrier applying a surcharge or canceling the application of a joint rate under this section shall file a tariff with the Commission in accordance with section 10762 of this title. Such a tariff may not become effective until the expiration of the 45-day period (or such longer period as the filing carrier specifies) beginning on the date such tariff is filed.

Ante, p. 1898.
49 USC 10709.

"(g)(1) Any rail rate to which a surcharge is applied under this section shall be subject to section 10701a and 10709 of this title, and any such surcharge shall constitute a rate increase for purposes of such sections.

"(2) For purposes of rate regulation under section 10701a of this title—

"(A) only the rail carrier proposing a surcharge under this section shall be required to defend such surcharge; and

"(B) the reasonableness of the surcharge and the revenues received by the rail carrier proposing the surcharge under the joint rate to which the surcharge applies shall be determined

without regard to amount received and services performed by other rail carriers that are party to such joint rate.

"(3) Except as provided in subsection (i), (j), or (k) of this section, if the application of a surcharge or the cancellation of the application of a joint rate under this section is found to constitute a violation of any provision of this title, such violation shall not be ordered remedied in any manner which—

"(A) requires the carrier applying a surcharge under subsection (a) of this section or canceling the application of a joint rate under subsection (c) of this section to provide service over any rate under a rate that provides revenues to such carrier that are less than 110 percent of its variable costs of providing such service; or

"(B) which requires the carrier applying a surcharge under subsection (b) of this section to provide service over the route to which such surcharge applies in a manner that provides revenues to such carrier that are less than 110 percent of such carrier's variable cost of transporting the traffic involved to or from the line to which the surcharge applies, plus such carrier's reasonably expected costs of providing service over such line.

Variable costs and revenues, determination.

"(h) Within 5 days after the request of a rail carrier participating in a joint rate subject to a surcharge or cancellation under this section, a shipper moving traffic over a route to which such surcharge or cancellation applies, or an affected port, the Commission shall make available to such carrier, shipper, or port the Commission's determination of the variable costs and revenues, over the route or routes to which the surcharge or cancellation applies, of the carrier applying the surcharge or canceling the application of the joint rate.

Investigation.

"(i)(1) Whenever a class III rail carrier, in a protest filed with the Commission, makes a prima facie showing that the application of a surcharge under subsection (a) of this section or the cancellation of the application of a joint rate under subsection (c) of this section will have an adverse effect on competition, the Commission shall investigate such protest. If, on the basis of such investigation, the Commission finds that the protested surcharge or cancellation is or is intended to be anticompetitive, the Commission shall, within 30 days after the date such protest is filed, enter an order rescinding such surcharge or cancellation, and may, on presentation of an adequate record, prescribe new joint rates or divisions of joint rates.

Rescinding order.

"(2) No order prescribed under this subsection shall require a carrier to provide service over any route under a rate which provides revenues less than 110 percent of the variable cost of providing such service unless the Commission determines that the public interest requires a lesser revenue to variable cost ratio to avoid anticompetitive action and to preserve service on the route involved.

"(j)(1) Any class III rail carrier which originates or terminates traffic subject to the application of a surcharge under subsection (a) of this section or the cancellation of the application of a joint rate under subsection (c) of this section may protest such surcharge or cancellation whenever—

"(A) such surcharge or cancellation affects the sole remaining route available to that carrier for that traffic; and

"(B)(i) such carrier demonstrates that alternative transportation is available or that a shipper dependent on that carrier will suffer significant market loss because of such surcharge or cancellation; or

"(ii) such surcharge or cancellation, alone or when considered in conjunction with other surcharges or cancellations affecting

the carrier, is likely to unduly impair a carrier's ability to earn an adequate rate of return.

"(2)(A) The Commission may, after an investigation on the basis of a protest under this subsection, prescribe a lesser surcharge or a different division of the joint rate. The Commission shall grant the surcharging or canceling carrier revenues not less than 110 percent of its variable cost of the movement involved, unless it determines that the public interest requires a lesser revenue to variable cost ratio to preserve service on the route involved. Any action by the Commission based on a protest under this subsection shall be taken within 30 days after the date such protest is filed.

"(B) If the Commission prescribes a different division of a joint rate under this paragraph, the Commission shall, upon petition of the surcharging or canceling carrier or the protesting class III rail carrier, reopen the proceeding in which such division was prescribed to reconsider whether such prescribed division is reasonable. If, on the basis of such reconsideration, the Commission determines that such division is not reasonable, it shall prescribe a new, reasonable division of the joint rate to which the surcharge or cancellation applied.

Rail carrier complaint.

"(k)(1) Upon the complaint of a class III rail carrier which originates or terminates traffic subject to the application of a surcharge under subsection (a) of this section or the cancellation of the application of a joint rate under subsection (c) of this section that such surcharge or cancellation will result in differences or greater differences in rates, including any surcharges, for the traffic to which the surcharge or cancellation applies over different routes in which the surcharging or canceling carrier participates—

"(A) from a single origin point to destination points within a 75 mile direct radius from the destination point on such class III rail carrier; or

"(B) to a single destination point from origin points within a 75 mile direct radius from the origin point on such class III rail carrier,

the Commission shall investigate such complaint and shall, within 30 days after the date such complaint is filed, take such actions, including rescinding surcharges or cancellations or prescribing new joint rates or surcharges, as it determines are required to eliminate such differences in rates, unless it finds that such actions are not warranted by the public interest in ensuring effective competition among rail carriers or in the preservation of rail service on the route involved.

"(2) No action taken by the Commission under this subsection shall require a carrier to provide service over any route under a rate which provides a revenue to variable cost ratio over such route less than that provided under the joint rate to which the surcharge or cancellation was applied or less than 110 percent, whichever is greater, unless the Commission determines that the public interest in ensuring effective competition among rail carriers or in preserving service over such route warrants requiring the surcharging or canceling carrier to provide service at a lesser revenue to variable cost ratio.

"(3) Notwithstanding subsection (m)(1) of this section, if, in a proceeding under this subsection or under subsection (i) or (j) of this section, the Commission considers whether to require the revenues of a carrier applying a surcharge under subsection (a) of this section or canceling the application of a joint rate under subsection (c) of this section to be less than 110 percent of its variable costs (as calculated using the Commission's Rail Form A cost finding methodology), such surcharging or canceling carrier may prove its actual variable costs on the basis of evidence other than unadjusted costs calculated using such Rail Form A cost finding methodology. Such evidence shall be prepared in accordance with generally accepted accounting principles.

94 STAT. 1924

"(l) Whenever the application of a joint rate to a through route is canceled under subsection (c) of this section, the Commission shall, upon petition by a class II or III rail carrier participating in such route, prescribe a new compensatory through rate or rates over such route within 30 days after the date such petition is filed.

"(m) For purposes of this section—

"(1) variable costs for a class I rail carrier shall be determined only by using such carrier's unadjusted costs, calculated using the Commission's Rail Form A cost finding methodology (or an alternative methodology adopted by the Commission in lieu thereof) and indexed quarterly to account for current wage and price levels in the region in which the carrier operates;

"(2) variable costs for a rail carrier other than class I shall be presumed to be the average variable costs of all class I rail carriers in the region in which such carrier operates (as determined under paragraph (1) of this subsection) unless a rail carrier rebuts such presumption with other proof of variable costs; and

"(3) at the option of a carrier applying a surcharge or canceling the application of a joint rate under this section, revenue share may be determined by reference to past revenue settlements actually made in the most recent calendar year by connecting lines.

"(n) Surcharges applied under subsection (a) or (c) of this section and cancellations under subsection (c) of this section shall not be subject to the provisions of section 10726 (a)(1)(B) of this title.

49 USC 10726.

"(o) The Special Counsel of the Commission may, consistent with the rail transportation policy in section 10101a of this title, provide assistance to class III rail carriers and small businesses in preparing actions under this section.

Ante, p. 1895.

"(p)(1) The authority to apply a surcharge under subsection (a) of this section, and (except as provided in paragraph (2)) the authority to cancel such a surcharge, shall expire 3 years after the effective date of the Staggers Rail Act of 1980 unless extended for one additional year by the Commission upon petition of any rail carrier and for good cause shown.

"(2) Any surcharge lawfully applied under subsection (a) of this section shall remain in effect in accordance with its terms following the expiration of the provisions of this section. Any such surcharge applied during the 45-day period immediately preceding the date of the expiration of the provisions of this section shall, notwithstanding such expiration, be subject to cancellation under subsection (a)(2) or (a)(3) of this section during the 45-day period beginning on the date such surcharge is applied.".

(2) The section analysis of chapter 107 of title 49, United States Code, is amended by inserting immediately after the item relating to section 10705 the following new item:

"10705a. Joint rate surcharges and cancellations.".

(b) For purposes of section 10705a of title 49, United States Code, the Interstate Commerce Commission shall classify all rail carriers on the basis of revenues, shall from time to time review its regulations setting forth revenue-based classifications for rail carriers, and

94 STAT. 1925

shall make appropriate changes in such regulations in order to reflect inflation. The Commission shall not reclassify switching and terminal carriers, or any other rail carriers not classified on the basis of revenues on the effective date of this Act, for any purpose other than for purposes of such section 10705a.

Contents.

(c)(1) The Interstate Commerce Commission shall include in its annual report to the Congress under section 10311 of title 49, United States Code, a report with respect to the application of surcharges and the cancellation of the application of joint rates by the Consolidated Rail Corporation and other rail carriers, during the preceding year, under section 10705a of title 49, United States Code. Each such report shall include—

(A) an analysis of the effect of application of surcharges and the cancellation of the application of joint rates under such section 10705a on shippers, ports, class II and class III rail carriers, railroad employees, and other elements of the rail system;

(B)(i) the number of surcharges applied by the Consolidated Rail Corporation and all other rail carriers under such section 10705a and the amount of revenue received by the Corporation and all other rail carriers from the application of such surcharges, (ii) the number of surcharges applied by the Corporation and all other rail carriers that were canceled under the procedures of such section 10705a, and (iii) the number of cancellations of the application of a joint rate by the Corporation and all other rail carriers under such section 10705a; and

(C) an analysis of the operation of the remedies made available to class III rail carriers under subsections (i), (j), and (k) of such section 10705a and to class II and class III rail carriers under subsection (l) of such section 10705a.

Report to Congress.

(2) The Interstate Commerce Commission shall, within 2 years after the effective date of this Act, submit a report to the Congress with respect to whether the provisions of section 10705a of title 49, United States Code, have adequately addressed the joint rate prob-

lems of rail carriers. The report shall include such recommendations with respect to such joint rate problems as the Commission considers necessary and appropriate.

EXPEDITED DIVISION OF REVENUES PROCEEDINGS

SEC. 218. (a) Section 10705(f)(1) of title 49, United States Code, is amended to read as follows:

"(f)(1)(A) The Commission may begin a proceeding under subsection (a) or (b) of this section on its own initiative or on complaint. The Commission must complete all evidentiary proceedings to adjust the division of joint rates for transportation by a rail carrier within 9 months after the complaint is filed if the proceeding is brought on complaint or within 18 months after the commencement of a proceeding on the initiative of the Commission. The Commission must take final action by the 180th day after completion of the evidentiary proceedings, except that—

"(i) when the proceeding involves a railroad in reorganization or a contention that the divisions at issue do not cover the variable costs of handling the traffic, the Commission shall give the proceedings preference over all other proceedings and shall take final action at the earliest practicable time, which in no event may exceed 100 days after the completion of the evidentiary proceedings; and 94 STAT. 1926

"(ii) in all cases other than those specified in clause (i) of this subparagraph, the Commission may decide to extend such a proceeding to permit its fair and expeditious completion, but whenever the Commission decides to extend a proceeding pursuant to this clause, it must report its reasons to Congress.

"(B) The provisions of this paragraph imposing time limitations upon Commission action shall not apply to any division proceeding involving a joint rate participated in by a class III rail carrier.".

(b) Section 10705(f)(1) of title 49, United States Code, as amended by subsection (a) of this section, is further amended—

(1) by striking out subparagraph (B);

(2) by striking out "(A)" immediately before "The Commission";

(3) by striking out "(i)" and inserting in lieu thereof "(A)";

(4) by striking out "(ii)" and inserting in lieu thereof "(B)"; and

(5) by striking out "clause (i) of this subparagraph" and inserting in lieu thereof "subparagraph (A) of this paragraph".

RATE BUREAUS

SEC. 219. (a) Section 10706(a)(1) of title 49, United States Code, is amended by adding at the end thereof the following new subparagraph:

"(C) 'practicably participates in that movement' shall have such meaning as the Commission shall by regulation prescribe.".

(b) Section 10706(a)(2)(A) of title 49, United States Code, is amended—

(1) by inserting "publication," immediately after "initiation," in the first sentence; and

(2) by striking out "section 10101" in the second sentence and inserting in lieu thereof "section 10101a".

(c)(1) Section 10706(a)(3)(A) of title 49, United States Code, is amended to read as follows:

"(3)(A) An organization established or continued under an agreement approved under this subsection shall make a final disposition of a rule or rate docketed with it by the 120th day after the proposal is docketed. Such an organization may not—

"(i) permit a rail carrier to discuss, to participate in agreements related to, or to vote on single line rates proposed by another rail carrier, except that for purposes of general rate increases and broad tariff changes only, if the Commission finds at any time that the implementation of this clause is not feasible, it may delay or suspend such implementation in whole or in part;

"(ii) permit a rail carrier to discuss, to participate in agreements related to, or to vote on rates related to a particular interline movement unless that rail carrier practicably participates in that movement; or

"(iii) if there are interline movements over two or more routes between the same end points, permit a carrier to discuss, to participate in agreements related to, or to vote on rates except with a carrier which forms part of a particular single route. This clause shall take effect on January 1, 1984, or on such earlier date as the Commission determines. If the Commission finds at any time that the implementation of this clause is not feasible, it may delay or suspend such implementation in whole or in part.".
